

Developer Profile

Name: Subha Dharshini S

Role: Frontend Developer

About:

As a Junior Application Developer, I specialize in frontend development and UI/UX design. I build responsive web applications with React.js, Tailwind CSS, Bootstrap, and WordPress, and design intuitive interfaces using Figma and Canva. I focus on modern UI trends, usability, and delivering clean, professional digital experiences.

Skills:

- **Frontend & Backend Development:** JavaScript, React.js, Node.js.
- **UI/UX & Design:** Figma, Canva, Bootstrap, Tailwind CSS.
- **Web Platforms & Database:** WordPress, MongoDB, MySQL.
- **Development Tools & Version Control:** VS Code, Git, GitHub.

Services Offered:

- **Web Development** – Responsive websites, modern UI/UX, and WordPress solutions.
- **Mobile Development** – Intuitive and user-friendly mobile applications.

Projects:

1. **Company Website Redesign & Frontend Development** – Revamped and implemented a modern, responsive website.
2. **Client Portal UI/UX Design (Figma)** – Designed an intuitive and user-friendly interface for client interactions.
3. **WordPress Website Development Across Multiple Domains:**
 - **IT Services** – Full website development for IT solutions company.
 - **Logistics** – End-to-end WordPress site for logistics services.
 - **Healthcare** – Developed a healthcare-focused WordPress platform.
 - **Painting & Art Gallery** – Built an engaging website for art showcase.
 - **Plantation** – Created a WordPress site highlighting plantation and environmental projects.
