Leadership

## Languages

Experienced nursing professional with proven teaching expertise and devotion to building up new nurses with skills necessary to excel in today's healthcare settings. Top-notch clinical expertise, sound judgment and strengths in workflow optimization and strategic planning. Vigilant and conscientious about isolating and resolving concerns. Enthusiastic NP eager to contribute to team success through hard work, attention to detail and excellent organizational skills. Clear understanding and training of healthcare. Motivated to learn, grow and excel in any new position and follow institutional policies and provide quality patient care.

## Work History

**CentraCare urgent care-Float-Nurse Practitioner-August 2021-current-** Urgent care needs, covid patients, Pediatrics, adults, and geriatrics, sprains, respiratory infections, UTI, STDS, eye issues, medication side effects, x-rays, and minor procedures

**Pulse Clinical Alliance-Nurse Practitioner/Clinical Liaison/Site Commander for the Tampa Bay Region-Contract completed** March 2020-September 2021- Leadership role. Monitoring other NPs and CNAs under my care. Partnering with community resources and getting the covid vaccine into Hillsborough, Pinellas, and Pasco County. Provided lead role both at the clinical and operational level of daily workflow and the internal role of keeping a clinic sustainable. Coordinated assignments, education, and conflict resolution between the staff. Provided intake of inventory, moved staff, and collaborated with other leaders. This assignment provided me the opportunity to utilize my doctoral skills and experience that uncovers skills beyond the bedside and into the clinic and community.

**St Petersburg College-Educator/Nurse Practitioner** Jan 2019-March 2021 Planning, development, and instruction of nursing courses. Lecture on nursing topics and train students to identify signs of patient health deterioration and clinical equipment malfunction. Provide students with opportunities to acquire the knowledge and practice the skills identified in course within the clinical setting

**Affiliated Orthopedic Specialists- Nurse Practitioner** Jan-2020-currently part time. Assess and treat orthopedic injuries Coordinated referrals for specialty services and additional care. Prescribed appropriate pharmacologic and non-
