

Siddhant Gaur

Full Stack Developer

As a fresher, my primary objective should be to learn and enhance technical skills and also gaining practical experience. Seek opportunities to work on real-world projects to gain hands-on experience. Focus on understanding the fundamental concepts of web development, such as HTML, CSS, JavaScript, Node.js, SQL, JavaScript framework such as (Angular.js, React.js) and responsive design.

PROJECTS

NOTE-APP

Technologies: Node.js, Express.js and MongoDB

Web-based note-taking application that allows users to create, edit, and delete notes. This app will be built using **Node.js** for server-side scripting, **Express.js** as the web application framework, and **MongoDB** as the database to store notes.

Crypto Currency Tracker and Analyzer

Technologies: React.js, Express.js, MongoDB, API integration.

Crypto currency tracker and analyzer is a powerful and user friendly web application designed for tracking and analyzing various cryptocurrencies in real-time.

TO-DO List

Technologies: HTML5, CSS, JavaScript

To-Do list application will allow users to add, edit, and mark tasks as completed their tasks and stay organized.

SKILLS

PROGRAMMING

Java (Intermediate)
JavaScript

TECHNOLOGY

FRONTEND

HTML5/CSS3
Bootstrap
React.JS (Intermediate)
Angular (Basic)
