## WORK EXPERIENCE

### Chief Technology Officer

**Sienco Polymer Industries Nigeria (SPIN)**  
*Sep 2021 - Oct 2023 (2 years 2 months)*

- As the CTO, I led web design projects, streamlined IT operations, improved IT service management, facilitated IT integration, and created compelling graphic design content, all contributing to the company's enhanced technological landscape and overall success.

### Chief Technology Officer

**Vride by Viclarry Ventures**  
*Jan 2019 - Aug 2020 (1 year 8 months)*

- In my role as CTO, I played a central role in the design and development of the company's e-hailing app. I designed the app's user interface (UI) and actively participated in the entire development process. I provided crucial technical insights to management and maintained a strong line of communication with developers, ensuring that the project aligned seamlessly with the company's objectives.

## WORK EXPERIENCE

### Booking Agent

**myPadi.ng**

*Mar 2017 – Nov 2018 (1 year 9 months)*

- I served as a vital liaison between the company and hostel owners. I worked diligently to assess and ensure that their facilities were suitable for our platform. This involved conducting on-site inspections and capturing images of the hostels to provide accurate representations.
- Additionally, I maintained open lines of communication with our users, actively seeking their feedback to continually enhance our services and make the platform more accessible and user-friendly. This two-way communication allowed us to align our offerings with user needs and preferences, ultimately improving the overall experience for our customers.

### Industrial Training Instructor

**Made Eazy Business Solutions**

*Aug 2015 – Fed 2017 (1 year 6 month)*

- I conducted training programs in various Nigerian tertiary institutions, providing valuable instruction in design and Microsoft Suite to students in over four schools.
- Additionally, I offered corporate branding and printing services to a diverse clientele.
