Oteyo Stive

Research Scholar, Content Writer, and Data Analyst | Knowledge Graphs, Generative AI

✉ oteyostive@gmail.com   📍 1300, 00100 Nairobi, Kenya

Profile

With a rich foundation in Information Technology from South Eastern Kenya University, my tenure as a Data Analyst at Egerton University empowered me to hone my skills in Oracle Database and Big Data Analytics. Our team leveraged these competencies to advance the institution's data management systems, ensuring robust and insightful analysis that supports academic excellence.

In my current role as a Research Scholar, I've cultivated a particular expertise in Knowledge Graphs, aligning with my passion for Generative AI and its transformative potential in academic research. My certification in Data Analytics Essentials by Cisco is a testament to my commitment to continuous learning and application of cutting-edge methods in data analysis and marketing communications.
