

# Krishna Kumar (ISOFT)

Looking For Opportunity

To obtain an entry-level software development position in a dynamic organization where I can apply my technical skills and knowledge to contribute to the development of high-quality software applications. Seeking an opportunity to work with a team of experienced professionals to learn new technologies and grow as a software developer while delivering value to the organization.

## SKILLS

Php

Laravel

Java

MySQL

Html

CSS

javascript

Reactjs

Github

## PERSONAL PROJECTS

### XCrypto (07/2022 - 08/2022)

- I developed a real-time crypto price website using React, providing users with up-to-date information on cryptocurrency prices. Leveraging APIs, I displayed live price data and implemented dynamic charts. This project demonstrated my proficiency in React and API integration, showcasing my ability to deliver user-friendly and data-driven web applications
