Full Stack Developer with 4 years of experience, proven track record of building efficient and scalable web applications using technologies such as JavaScript, Node.js, Angular, HTML/CSS, and SQL. With a passion for creating clean and responsive code, committed to delivering high-quality work that improves user experience. My accomplishments include developing a responsive telecom website that increased sales by 30%, optimizing website loading speed resulting in a 15% decrease in bounce rate, and maintaining and improving AWS infrastructure leading to a 10% decrease in server costs.

## Experience

### Verizon Wireless

(May 2022 – Present)

#### Full Stack Developer

- Collaborated with the design team to create a responsive and user-friendly e-commerce website using Angular, resulting in a 30% increase in sales within the first quarter of launch.
- Implemented new features and fixed bugs for the company's flagship application using Angular, resulting in a 20% increase in user retention. Optimized the website's loading speed, resulting in a 15% decrease in bounce rate.
