• Profile

I'm a Full Stack Developer with over 10 years of experience with a versatile professional skilled in web and mobile applications, proficient in creating web applications from scratch to perfect production. I possess a deep understanding of various programming languages, frameworks and databases management. Adept at third party libraries such as AWS, Microsoft Azure, Firebase and etc. Also I have a some experience with Open AI integration so I integrated Open AI to the project to analyze the specific data.

• Work Experience

Freelance | Self Employed • Freelance
Dec 2024 - Present

Senior Full Stack Developer | Tech savvy group

Aug 2021 - Nov 2024

- Developed new features for an application supporting job center employees using Next.js, Nest.js, and PostgreSQL.
- Collaborated as part of a team to create a large-scale enterprise application for a major client, which is utilized globally by their employees. The client experienced a 2x increase in profits within a year of using the platform.
- Established fully automated CI/CD pipelines on CircleCI for containerized applications using Docker and Digital Ocean services.
- Analyzed Data by integrating Open AI.

Radomir Milanovic

Full Stack Developer

• Education

University of Belgrade

Bachelors Degree | 2009 - 2013

- Computer Science

• Work Experience

Full Stack Development | SoftServe

Feb 2017 - Jul 2021

- Versatile experience in various roles, including React.js Developer, Node.js Developer, SQL Developer, PHP Developer, among others.
- Implemented various screens for the front end using React.js and various predefined components from NPM (Node Package Manager), bower and redux library for Dependency management.
- Hands on experience in developing server - side JavaScript frameworks using Node JS (Express JS) to build event driven, non-blocking i/o model web applications.
- Created web services and desktop applications to access and display data needed by support teams using, Ajax, JavaScript, JQuery, Angular. Js, Vue.js, Node.js, Php, HTML5 and CSS.

Frontend Developer | Softtek

Apr 2013 - Jan 2017

- Served as a Senior Front Developer, working on the React frontend.
- Developed a responsive application UI using React, along with custom component libraries, enabling seamless switching between Microsoft Azure and Google Cloud APIs.
- Recommended the use of React, Redux, and immutable data structures for UI development. Constructed a complete new checkout workflow using Angular.
- Implemented asynchronous updates in the application with Ajax calls, eliminating the need for full-page refreshes.
- Refactored and enhanced the continuous integration code in the main repository and created a gem for use in other projects.
