

SOFTWARE ENGINEERING SUMMARY

- Results-driven software developer with 1.5 years of experience in full-stack web development, eager to tackle challenging projects and deliver high-quality solutions
- Proficient in utilizing various programming languages and frameworks to design, develop, and deploy efficient and user-friendly software applications
- A dedicated team player ready to collaborate and contribute innovative ideas to drive continuous improvement and achieve business objectives.

WORK EXPERIENCE

FREELACER

□ Working remotely with a team of experienced developers to design and develop responsive, mobile-first web applications using HTML, CSS, JavaScript, React.js, Ruby on Rails, and Firebase, to build and deploy innovative and user-friendly applications across all devices.

□ Participating in code reviews and testing to ensure high-quality software.

□ Collaborating with designers, developers, and project managers to develop effective solutions to business problems

□

FULLSTACK

November 2022 - Present

EDUCATION

MORINGA

Certified fullstack developer

SOFTWARE ENGINEERING

September 2022 - May 2023

CODECADEMY

completed frontend web development

FRONTEND WEB DEVELOPMENT

April 2022 - June 2022

SKILLS

Front-End Development: HTML, CSS, JavaScript, React.js

TypeScript: Experience in building applications using TypeScript .

Back-End Development: Ruby on Rails (Ruby)

Database Management: SQL, PostgreSQL

Version Control: Git and GitHub

UI/UX Design: Strong understanding of user interface and user experience principles, contributing to intuitive and visually appealing designs.

INTERESTS

- Open-source Contributions
- Problem-solving Coding Challenges
- Technology Trends and Innovations
- Tech Events
