Summary

I am an experienced analytical BI individual with a strong eye for detailed analysis and reporting. I have a strong understanding of how to use data to improve the performance of a Business Organization, with proficiency in using a variety of BI tools like SQL, Microsoft Power BI, Python, R and MS Excel.

I am passionate about leveraging data to support strategic decision-making and have a track record of delivering valuable insights that helps in driving strategic business decisions. If you are seeking a BI Analyst who can turn data into a competitive advantage, I would be a valuable addition to your team.

Experience

KPMG AU Data Analytics Virtual Internship

Forage

Sep 2023 - Oct 2023 (2 months)

I Completed a simulation focused on advising a client on customer targeting with the Data, Analytics & modeling teams.

I dived into a self paced learning environment where;

- I assessed data quality and completeness in preparation for analysis.
- I cleaned the dataset with MS excel and SQL, created database and loaded the unique table for proper queries execution in MySQL and MS SQL. I designed and implemented data models, ETL processes, and data warehouses to ensure data accuracy, consistency, and accessibility.
- I also analyzed data to target high-value customers based on demographics and attributes.
- I performed data visualization by developing dashboards with Power BI to communicate findings with visuals.
- I used Python and R programming languages to perform data modelling, Explanatory data analysis (Uni variate and Bi variate analysis), creating reports in Markdown and Jupyter Notebook for understanding.

Xero Accounting Analyst Intern

Collective Consulting Limited

Mar 2023 - Jun 2023 (4 months)

Education

University of Nigeria, Nsukka

Bachelor's degree, Economics

2017 - 2022
