

# PARAMJEET S I N G H

Websites . Branding . Digital Marketing

20+ Years Experience

My mission is to help organisations mitigate this risk and thrive with human-centred design and digital experiences. With over 20 years of freelance experience, I'm in the perfect position to help organisations succeed with stellar online presence.

I enjoy creativity and solving problems and have grown up with a deep passion for design and technology. I guess that is why today I work with amazing clients and help them to solve business problems with design.
