PROFESSIONAL EXPERIENCE

Central Kentucky Anesthesia @ Baptist Health Lexington, KY, United States

Staff CRNA

February 2015 – Present

- Primarily work in the orthopedics team. This entails providing regional as well as general anesthesia, implementing evidence-based practice guidelines, and working in multi-disciplinary team for patient care.
- Placement of spinals and peripheral nerve blocks with the ultrasound, including interscalene, supraclavicular, infraclavicular, axillary, PECS, TAPs, femoral, adductor canal and popliteal blocks.
- Prepare and inspect drugs and equipment necessary for the conduct of the planned anesthetic.
- Deliverers anesthetics to surgical patients in an urban medical facility, encompassing patient's preoperative assessment, intra-operative anesthetic management, and post-operative patient follow up.
- Safely administer anesthesia for variation of cases including neuro, vascular, urology, orthopedics, GYN, ENT, ophthalmology, and general surgery.
- Regularly monitor patient by viewing and analyzing ECG, temperature, heart and breath sounds, blood pressure, gas analyzers, and other vital signs and equipment. Monitor arterial blood gas, hematocrit and hemoglobin and other measures determined appropriate intervention per patient and surgical case.
- Provide one-on-one instruction to student nurse anesthetists during the perioperative period.
- Grade student performance and evaluate future hiring potential of these students
- Preparing and administering the patient-specific anesthesia needed for the procedure

- Maintaining the patient's anesthesia levels during surgery.

King's Daughters Medical Center
