08133957562

CAREER OBJECTIVE: To work as a team in a dynamic and interdisciplinary organization where the pursuit of excellence is a priority and personal development is assured.

Date of Birth: 25th may 1986
Sex: Male
Marital Status Married
State of Origin: Delta
Local Govt. Area: Sapele
Nationality: Nigerian

INSTITUTION ATTENDED WITH DEGREES AND DATE(s)

Petroleum Training Institute (PTI) Effurum-Warri, Delta State, 2013
Higher National Diploma (HND) in Welding And Fabrication Engineering.

Petroleum Training Institute (PTI) Effurum-Warri, Delta State, 2007
National Diploma (ND) in Welding & Fabrication Engineering.

Eziafa Grammar School, Amukpe-Sapele, Delta State
Senior Secondary Certificate 2003

Ethiope Primary School, Amukpe-Sapele, Delta State 1997

First School Leaving Certificate

WORK EXPERIENCE

DANGOTE SALT REFINERY (Mechanical Engineer/Welding Technician) 2019 -2023

Job functions:

- Obeying HSE roles by using PPE, reporting all unsafe work and avoiding near miss.
- Oiling and greasing of moving parts of machines such as gears.
- Relate with the welding supervisor in order to know the causes of weld defects such as cracks, lack of penetration etc.
- Monitoring and control of consumable to avoid contamination with water.
- Report non conformity standard to the QC supervisor.
- Identification of weld defects such as cracks, porosity etc. via NDT method.
- Proficient in metrics of measurements and material handling techniques.
- Preventive maintenance of machines such as greasing.
Oiling and replacement of fracture machine parts.
- Calibration of vibrating machine sieve to suit customers demand using different diameters.
- Corrective maintenance of machines.
- Monitoring of production process.

- Changing screw conveyor bolts when required.
- Daily report documentation of activities.
- Fastening of sprockets to chains.
- Carrying out preventive maintenance on machines using checklist.
- Regular check for weld defects such as porosity, slag Inclusion, under cut, burnt root etc.
- Servicing and repairs of screw conveyors & conveyors belts
- Changing of bearings in machines
- Greasing of moving parts of machinery
- Monitoring of production output for conformity of the product.
- Replacement of worn out parts of machines by cutting out damage part and welding.
- Welding and fabrication of feeding upper.
- Obeying quality management policy ISO 90001: 2015
- Obeying food safety policy ISO 22000: 2018
- Alignment of chains on sprocket.
- Extraction of broken bolts from machine parts using welding or drilling.
- Mechanical fastening of machine parts.
- Welding of spider bearing to shaft.
- Lubrication of bearings using Manuel and machine.
- Monitoring of the movement of conveyor belts.
- Lubrication of gear box.
- Cutting of chain using mechanical means.
- Changing of damage Teflon to effectively hold the shaft firmly.
- Alignment of pulley with shaft.
- Alignment of belt with shaft pulley and electric motor pulley.
- Filling and welding of broken shaft.
- General over hauling of moving parts
- Operator of automatic drilling machines
- Operator of power hack saw
- Monitoring of production process

BET9JA BETTING COMPANY (MANAGER)

2017 - 2018

JOB FUNCTIONS:

- Ability to manage all my staff's by ensuring they come to work promptly and timely
- Ability to run the day to day activities without having issue
- Ability to manage the daily income runs into millions of naira and remitting it into the company account every Tuesdays
- Making sure all the company properties are safe and in good order
- Daily and weekly report to my zonal manager promptly
- Overall cleaning of the company equipment to avoid damage
- Ability to manage stress and work without supervision
- Ability to developed emotional intelligence and control
- strong ability to manage customers and meeting their request timely and promptly
- Training on the use of computer packages

Job functions:

- Fillet welding of damage component parts
- Butt welding of damage heavy machines component parts
- Welding of conveyor blades
- Operator of the automatic power saw-cutter
- Operator of the hydraulic drilling machine
- Cutting and replacement of worn-out parts by welding
- Handling of welding torch for cutting and welding
- Efficient in structural and butt weld
- Efficient in maintenance of mechanical moving device
- 1F, 2F, 3F, and 4F structural fillet welding position
- Weld inspections using radiographic, and visual inspection method
- Fastening of plates using riveting machine
- Fastening of machine and its parts using Makita machine
- Installation of electric motors for driving feed chains
- Installation of. Feed chain Auger
- Replacement of fracture feed Auger bolt
- Lubrication of feed Auger bearings periodically
- Monitoring of the sound of moving parts bearings
- Dusting, cleaning and lubrication of chains
- Replacement of damage gears and pulley belts

TRAINING ATTENDED

- CERTIFICATION TRAINING BY FEDERAL MINISTRY OF SCIENCE
- AND TECHNOLOGY(under scientific equipment development institute SEDI) on:
 1. Mechanical workshop safety
 2. Mechanical MEASURING tools and workshop
 3. Metal joining in fillet and butt weld
 4. Gas cutting
- One year compulsory NYSC scheme in teaching Mathematics and further mathematics
- Certification on non destructive testing (NDT) on weld
- Proficient in the use of Microsoft word and excel
- Efficient in the use of outlook and internet browsing

HOBBIES: Reading, sport and research work

REFEREES**MR. KALIO LONDON**

Staff of Nigeria Gas Company-N.G.C
