ACCOMPLISHMENTS

- Diversity, Equity and Inclusion in the Workplace Certificate issued by University of South Florida (USF) Office of Corporate Training and Professional Education, 2021.

Experienced Internal Medicine patient-focused physician specialized in providing high-value care to patients in any clinical setting. Proficient in diagnosing and treating a wide range of medical conditions, leveraging evidenced-based practices and employing advanced diagnostic tools. Recognized for outstanding patient care, effective communication, and empathic bedside manners. Experienced in resource-limited settings, collaboratively working with interdisciplinary teams and local healthcare providers.

EXPERIENCE

June 2022 - Current

Resident Doctor *Piedmont Athens Regional Medical Center*, Athens, USA

- Utilized background medical history and physical examinations to develop individualized treatments plans for patients.
- Checked patients' condition, treatment and progress regularly and communicated clearly and concisely with patients and their families.
- Maintained accurate records of patient visits, diagnoses and treatments in electronic health record system (EPIC).
- Offered holistic treatment approach combining medications with lifestyle improvements.
- Performed procedures specified by my Program Director while under the direct supervision of attending physicians.
- Member of the Annual Program Evaluation Committee.
- Actively involved in didactics and wrote case reports in collaboration with residents in my program and in other programs. Some of the case reports were published and presented at conferences like ACP, GA chapter and AHA Scientific Sessions.
- Actively participated in a group QI project that aimed to improve the rate of HPV vaccination in our Community Care Clinic. We developed a DOT PHRASE as part of the clinic office note template to achieve this outcome.
- Volunteered at community outreaches organized by my program to reach out to the underserved population.

March 2021 - February 2022

Clinician AIDS Preventive Initiative in Nigeria (APIN), Ibadan, Nigeria

- APIN is a non-governmental organization in solid partnership with the Nigerian Government that provides treatment, care, and support to patients with HIV/AIDS and high-risk patients in Nigeria.
- Gained experience in providing comprehensive services for HIV care and prevention to positive patients and high-risk patients.
- Kept current with the latest treatment strategies and intervention plans.
- Worked with patients and other clinical professionals in developing treatment plans for these patients.

May 2021 - June 2021

- Gained insight into the healthcare system that is obtainable in the United States of America via the telemedicine program.
- Participated actively in the clinical activities that involved interacting with patients in the outpatient setting via telemedicine.
- Participated actively in the simulation lab, which provided an immense learning experience.
- Learned about the landmark studies that informed current guidelines for common chronic medical conditions, including student studies for future guidelines.
- Gained exposure and proficiency in Electronic Medical Records (EMR) like eClinicalWorks.

January 2021 - April 2021

Medical Officer *Saint Marello Catholic Hospital*, Ibadan, Nigeria

- Admitted and treated patients as part of the hospital's 24-hour on-call services.
- Oversaw day-to-day practice functions alongside three other Medical Officers and a Consultant in delivering well-rounded care to patients.
- Attended to emergency cases during my shift and provided first aid care to patients whose medical needs were beyond our scope of services before making prompt referrals to appropriate specialty services.

November 2019 - October 2020

Medical Officer *Toun Memorial Specialist Hospital*, Ibadan, Nigeria

- A general practice private hospital that runs a 24-hour In-patient and outpatient services.
- Teamed with other physicians, specialists, and health care providers in providing well-rounded care for patients with complex cases, including Covid-19 cases.
- Met with patients to discuss medical histories and current complaints, and create appropriate treatments to achieve optimal health in patients.
- Gained exposure and proficiency in electronic medical records (EMR) like SwiftPractice.
- Trained staff to maintain compliance with system regulations and policies.

September 2018 - August 2019

Medical Officer *General Hospital, Moniya*, Ibadan, Nigeria

- A government-owned hospital where I did my one-year community service, called NYSC.
- Volunteered 40 hours a week at the community health clinic to provide high- quality care for low-income and indigent patients.
- Admitted and treated patients as part of the hospital's 24-hour on-call services.

June 2017 - June 2018

Medical House Officer *University College Hospital (U.C.H.)*, Ibadan, Nigeria

- Received post-graduate internship training involving extensive clinical exposures in inpatient, outpatient, and emergency settings in internal medicine, surgery, obstetrics/gynecology, and pediatrics.
- Developed treatment plans and ensured prompt and proper implementation of diagnostic and therapeutic strategies for patients.
- Participated actively in the management of critically ill patients in the intensive care unit.
- Had case presentations during ward rounds, seminars, and teaching conferences and collated data on patients for clinical research.
- Had didactic discussion sessions with the medical students on fundamental topics and areas where they experienced difficulty.
