Experience**Mobilexusa**

April 2018 to July 2018

Reliable radiologic technician with current certification and excellent clinical laboratory skills. Solid understanding of radiation physics and dosimetry, chemistry, and use of hazardous substances. Demonstrate a high level of initiative and proficiency in prioritizing potential opportunities in clinical and laboratory settings. Position requires driving to patients homes and nursing homes to acquire x-ray images. After acquiring x-ray image I have to make sure I document it and make sure it crosses over on the pacs system. Also requires being able to be independent and work by yourself to take x-ray images and verify that it is of diagnostic imaging.

Techcare xray

July 2018 to July 2020

Position requires driving to correctional facilities and taking multiple diagnostic x-ray films. Perform radiographic exams (up to 60 per day) in compliance with tech care standards and practices. Being able to take EKGs and provide them to the ordering doctor. After acquiring x-ray images I have to make sure I document it and make sure it crosses over on the pacs system. Also requires being able to be independent and work by yourself and being able to work with inmates to take x-ray images and verify that they came out properly. Also ensured patient safety and utilized radiation protective devices to protect myself and patient from radiation.

Jeff Davis hospital

November 2018 to current

Position requires working in a hospital setting to acquire diagnostic x-ray images. Also requires being able to position a variety of patients and explain procedures to patients. Recorded patients histories and filed supporting clinical data and diagnoses. Performed Cat scans with and without contrast and made sure no intravenous dye infiltrated the patient veins.
