📄 PROFILE

A highly motivated and detail-oriented frontend engineer with a passion for creating engaging and user-friendly web applications. I possess a solid foundation in HTML, CSS, and JavaScript, along with a keen eye for design and a strong understanding of responsive web development principles. I'm dedicated to continuous learning and professional growth, constantly seeking opportunities to expand my skillset and stay updated with the latest trends in frontend development. I'm a collaborative team player with excellent communication skills, able to contribute effectively in a fast-paced and dynamic work environment. I'm committed to delivering high-quality code and creating seamless user experiences. I'm seeking a challenging role as a frontend engineer to apply my knowledge, learn from experienced professionals, and contribute to the success of innovative projects.

📁 PROFESSIONAL EXPERIENCE

Payshiga Technologies

Frontend Engineer Intern

06/2023 – present | Lagos, Nigeria

- Collaborated closely with the Chief Executive Officer (CEO), team of designers and backend developers in the successful deployment of sophisticated dashboards and their accompanying client portals utilizing Vue.js, Vuex, and CSS framework Bootstrap.
- Participated in daily stand-up meetings that fostered efficient communication and iterative progress, enabling real-time updates on project developments and fostering a collaborative atmosphere.

Semicolon Africa

Frontend Engineer

01/2023 – 05/2023 | Sabo, Nigeria

- Volunteered and collaborated with a cross-functional team of designers and backend developers to build responsive web applications. I participated in daily stand-up meetings, provided regular progress updates, and actively contributed to code reviews and problem-solving sessions.
- Debugged and resolved browser compatibility issues during the development of a web application, ensuring consistent functionality across major browsers. Utilized Chrome Developer Tools and conducted thorough testing to identify and fix the root cause of the issues.
- Utilized Git for version control, creating branches, merging code, and resolving conflicts during a team-based project. Effectively used Jira to track project tasks, assign priorities, and collaborate with team members on issue resolution.

🎓 EDUCATION

BA, Creative Arts

University of Lagos

10/2018 – present | Lagos, Nigeria

Business Management and Entrepreneurship

Henley Business School (University of Reading)

02/2023 – 03/2023

Software Engineering

Semicolon Africa

01/2022 – 12/2022 | Sabo, Nigeria

- Completed a 1-year intensive frontend development training program at Semicolon, where I gained proficiency in HTML, CSS, JavaScript, and responsive web design principles. Also, I gained experience using several frontend frameworks and libraries.
- Developed a responsive Logistics Web App as part of an internship, utilizing React.js, Redux, and CSS frameworks such as Chakra UI. Collaborated with a team to implement new features and ensure a seamless user experience.

🧠 SKILLS

- HTML5
- CSS3
- JavaScript
- React / Redux
- Vue / Vuex
- Server-Side Rendering
- Tailwind / Bootstrap
- Rest APIs
- TypeScript
- Debugging and Troubleshooting

📁 PROJECTS

E-commerce

- An online e-commerce application that focuses on sales and purchases of products online.
- Created the logical flow, modelling and architecture of the system using wireframe, and designed the system using cutting-edge technologies like HTML5, CSS3, Bootstrap and React.js.

Technologies used: HTML5, CSS3, React, Firebase, Bootstrap

Rentgage

- The Rentgage app is a user-friendly and comprehensive platform designed to simplify the process of finding houses for rent.

Technologies used: HTML5, CSS3, React
