Mitchel Ogunniyi

PROFESSIONAL SUMMARY

Results-driven Full Stack Web Developer with a strong background in project management and expertise in JavaScript, ReactJS, Node.js, and PHP (Laravel) stacks. Proficient in leading cross-functional teams, coordinating project timelines, and ensuring successful delivery of web development projects. Skilled in translating business requirements into technical specifications, designing scalable architectures, and implementing robust solutions. Demonstrated ability to manage project scope, budget, and resources effectively. Adept at fostering collaboration and communication among stakeholders to achieve project goals. Committed to delivering high-quality, user-centric web applications that drive business growth. Seeking a challenging role as a Project Manager or a Full Stack Web Developer, where I can utilize my project management experience and technical expertise to deliver innovative and impactful web solutions.

EXPERIENCE

DavTech Invest, Lagos, Nigeria — *Project Manager, Volunteer (UI-UX Team)*

May 2023 - PRESENT

- Utilizing Jira and Trello to effectively manage design projects in an Agile environment.
- Coordinating and leading the design team, ensuring tasks are assigned, tracked, and completed within the given timelines.
- Streamlining project workflows, enhancing collaboration among team members, and ensuring transparency in project progress through Jira and Trello.
- Implementing Agile methodologies to facilitate the completion of various design projects.
- Successfully delivering design projects, resulting in enhanced user experiences and increased client satisfaction.

Building-U, NewFoundland, Canada — *Co-Team Lead, Volunteer (Reactjs, Laravel)*

November 2022 - Present

As a Volunteer Co-Team Lead (React/Laravel) at Building-U from Nov 2022 to May 2023, I:

- Led a team of volunteers in developing web applications using React and Laravel, fostering collaboration and knowledge sharing.
- Managed projects using Agile methodologies, ensuring timely delivery.
- Provided technical guidance, performed code reviews, and promoted best practices.
- Engaged with stakeholders to align project deliverables and ensure client satisfaction.
- Successfully delivered high-quality applications, enhancing user experiences and contributing to organizational growth.

Uziben Nigeria Limited, Lagos, Nigeria — *Telecoms Technician*

June 2019 - Present

As a Telecoms Lab Technician at Uziben Nigeria Ltd since July 2019, my responsibilities and accomplishments include:

- Testing and maintaining telecoms equipment for optimal performance and reliability.
- Analyzing test results, generating reports, and documenting findings for compliance and quality assurance.
- Collaborating with engineers and project managers to coordinate testing schedules and address technical issues.
- Ensuring accurate record-keeping of equipment inventory, testing procedures, and maintenance activities.
- Seeking opportunities for process improvement, implementing enhancements, and staying updated on industry advancements.

SQI College of ICT, Oyo, Nigeria — Full Stack *Web Developer, Trainee*

August 2018 - June 2019

As a Trainee Web Developer at SQI College of ICT from August 2018 to

SKILLS

JavaScript

- Computer Science: Introduction to computer science, basic programming and digital literacy.
- Health Education: Topics related to personal health, wellness, and safety.

PROJECTS

[Bank App](#) — *A bank app built using HTML, CSS, JavaScript, PHP, MySQL*

A full stack web app built as a final project for my web development training at SQI College of ICT. It involved different frontend and backend technologies to complete the project. It is hosted on a free domain and has no SSL but it is functional.
