A performance-driven, hard-working individual who is seeking the opportunity to work in a position where I will utilize and enhance my scientific knowledge, as well as my communication, organizational, motivational, and leadership skills. A MSc holder, healthcare graduate with years of teaching and business experience from affiliated organizations in the past, holding positions in various healthcare departments. Striving to establish and pursue advancement in organizations, to improve my analytic and scientific skills. To become an excellent strategist that will exploit good work ethics and science related skills in organizations in the nearest future.
