

To Whom It May Concern:

I am currently a PGY-4 podiatry resident at New York presbyterian Hospital (NYP Cornell, Columbia and Queens) in the department of Orthopedic and rehabilitation and seeking a full-time podiatry position starting July 2023.

My ideal job would be to join and work for a multi-specialty group or hospital setting but flexible to join a private or podiatry group practice as well. I am excited about providing quality and comprehensive foot and ankle care to all patients in all age groups. I am confident in my solid training related to Foot and Ankle trauma, limb salvage, wound care, and general podiatry skills. I feel fully prepared by my residency training that I received in the last four years in Four different hospital settings including NYP-Q and NYP-Cornell level-1 trauma center and NYP-Colombia and Flushing Medical Center community hospital. In the last four years, I have worked with more than 60 podiatrists, and many other medical specialties including orthopedic trauma surgeons, orthopedic Foot and Ankle specialist, Vascular surgeons, Infectious disease specialist, plastic surgeons and performed more than 800 surgical cases, and 1000 procedures. I am confident, not only with the surgical skills that I acquired but also in preoperative planning and postoperative care with my extensive exposure with multiple outpatient private and hospital clinics.

I remain flexible in terms of geographical preference to find a career path in podiatry which will keep me grounded and grow both personally and professionally. I am happy to be searching for a job that will be long lasting and fulfilling to benefit both me and my patients, and the group as a whole. My roles and responsibilities throughout residency have been complete and teamwork has been essential to my success. My strengths are preparation, a positive outlook and teamwork. Please feel free to reach out to my references listed on my CV. I would be happy to schedule a visit to learn more about this job opportunity.

Thank you for your consideration,
Samuel Enyew, DPM PGY-4
