Upper Marlboro, MD. 20772 | (240)-825-9529 | Yemmy16@yahoo.com

PROFESSIONAL SUMMARY

Dedicated and accomplished Doctor of Nursing Practice with over a decade of expertise in the healthcare field. Possessing dual certification in family and psychiatry, I bring a comprehensive and dynamic skill set to patient care. My commitment to excellence is evident in my ability to integrate clinical knowledge with compassionate care, fostering positive outcomes for individuals and families. With a proven track record of leadership, collaboration, and continuous learning, I am poised to make a significant impact in advancing healthcare practices and improving the overall well-being of those I serve.

PROFESSIONAL EXPERIENCE

New Day New Start Behavioral Health Center | Essex, MD, 21221-3386

Medical Director | May 7, 2023 - Till Date

- Offering medical supervision and administrative guidance to subordinate medical and support staff.
- Developing protocols and standardized procedures to ensure efficient and effective clinic operations.
- Conducting comprehensive psychiatric evaluations, rendering accurate diagnoses, prescribing treatments and medications, and recommending therapeutic interventions tailored to address patients' psychiatric needs.

National Institutes of Health | Bethesda, Maryland

Medical and Psychiatry Consultant | January 3, 2022 - Till Date

- Organizing and monitoring clinical and research support activities, while also providing evidence of progress in staff recruitment and patient screening for studies.
- Ensuring the integrity of the informed consent process, human subject protection, performs data collection using standardized scales, and follows procedures in medical records and databases, documenting observations and identifying trends.
- Evaluating research participants for safe participation in brain imaging research, provides feedback to the research team, and engages in problem-solving based on findings, while also identifying, evaluating, and communicating the impact of the research process on patient care.
- Delivering comprehensive patient care in the outpatient MRI setting, conducts structured and semi-structured interviews with patients and families, and provides clinical and psychological support to both adult and pediatric patients, along with healthy volunteers.
- Responsible for screening subjects and ensuring safety during brain imaging and neuromodulation studies, performing physical examinations, entering medical orders, reviewing lab results, and managing emergencies on unstable patients while monitoring patient safety and providing family support.

Luminex Healthcare Services, LLC

Medical Director | March 2018 Till Date

- Providing oversight and administrative direction to subordinate medical and support staff in adherence to COMAR regulations.
- Developing and implementing protocols and standardized procedures that align with COMAR guidelines to maintain regulatory compliance and enhance clinic operations.
- Performing thorough psychiatric evaluations, delivering precise diagnoses, prescribing treatments and medications, and suggesting therapeutic interventions in accordance with COMAR regulations to address patients' psychiatric needs.
- Collaborate with the Utilization Review Officer to oversee the approval and denial processes for both commercial and government payers.
- Develop and implement programs aimed at securing reimbursement for services, focusing on medical necessity and adhering to regulatory mandates for billing accuracy.

Community Care | Laurel, MD. 20707

Medical Director | November 29, 2021- November 4, 2022

- Offering medical supervision, administrative guidance, and implementing protocols for subordinate staff in accordance with COMAR regulations.
- Conducting psychiatric evaluations, delivering accurate diagnoses, prescribing treatments, performing clinical assessments and crisis interventions, all in alignment with COMAR guidelines.
- Serving as a preceptor for nurse practitioner students from various universities, ensuring educational activities adhere to COMAR regulations and ethical standards.

PROFESSIONAL EXPERIENCE

Leading By Example | Nottingham, MD 21236

Psychiatry Nurse Practitioner | June 17, 2020 - Till Date

- Collaborate with the interdisciplinary healthcare team to assess and reassess patients' mental health needs, ensuring a holistic understanding of their conditions within the Health Homes framework.
- Develop and update individualized treatment plans based on ongoing patient assessments, incorporating Health Homes goals and objectives to enhance overall well-being and psychiatric stability.
- Facilitate communication and coordination among various healthcare providers, social services, and community resources to support patients in achieving their treatment goals outlined in the Health Homes program.
- Educate patients and their families on mental health management strategies, medication compliance, and lifestyle modifications that align with Health Homes objectives, fostering patient empowerment and active participation in their care.

IAFF Center of Excellence | Upper Marlboro, MD. 20772

Psychiatry/Family Nurse Practitioner | March 6, 2017 - Till Date

- Conduct comprehensive initial psychiatric evaluations and assessments, obtaining age-appropriate history and conducting thorough physical examinations for newly admitted patients.
- Request and interpret diagnostic and therapeutic tests tailored to each patient's age and individual needs, ensuring precise diagnosis and effective treatment planning.
- Customize pharmacologic and non-pharmacologic interventions based on individual patient requirements, prescribing interventions that align with their unique needs.
- Maintain accurate, legible, and timely medical records for all assessed and treated patients, adhering to established documentation standards.
- Facilitate seamless transitions for patients within and between healthcare settings, overseeing admissions, transfers, and discharges to ensure continuity of care.
- Actively engage in daily Flash and treatment team meetings, offering insights and recommendations to enhance patient care and optimize treatment outcomes.
- Collaborate with the Utilization Review Officer to manage approval and denial processes for commercial and government payers within an in-patient psychiatric facility specializing in the unique population of firefighters.
- Implement targeted programs to ensure reimbursement for services, emphasizing medical necessity and compliance with regulatory billing mandates.

Psychiatric Institute of Washington | Washington, DC 20016

Family Nurse Practitioner, Supervisor | March 14, 2016 - April 05, 2017

- Oversee and manage the internal medicine department's operations, ensuring the delivery of high-quality patient care and streamlined workflow.
- Provide leadership and guidance to departmental staff, cultivating a collaborative and supportive work environment.
- Perform in-depth patient assessments within 24 hours of admission, conducting comprehensive physical examinations and gathering detailed medical histories.
- Request and analyze diagnostic tests and screening evaluations to support precise diagnoses and effective treatment planning.
- Work collaboratively with multidisciplinary teams to craft individualized treatment plans, delivering optimal care to patients.

PROFESSIONAL EXPERIENCE

Johns Hopkins Hospital | Baltimore, MD 21287

Staff Nurse, Clinical Nurse Internal Medicine | October 1, 2012 - October 2016

As a part of the Eating Disorder and Affective Disorder Unit, I undertook the following responsibilities:

- Delivered compassionate care to patients facing acute mental distress or enduring mental illnesses.
- Conducted comprehensive assessments and held open conversations with patients to grasp their concerns, formulating effective care plans.
- Ensured the precise and safe administration of medications, including injections, while closely monitoring treatment outcomes.
- Responded to distressed patients with empathy and sensitivity, seeking to understand the underlying causes of their distress.
