I am a Backend Engineer and a Blockchain enthusiast passionate about solving complex problems by Building technological solutions out of business needs. I have over a year of experience working on web applications and less than a year in the Blockchain industry. I can fit into any of the phases of the software development life cycle and I can work both individually or collaboratively.

EDUCATION

Federal University Of Technology, Owerri-Imo State, Nigeria **September 2018 – Present**

Bachelor of Technology: Geology(Geophysics Major)

- **Relevant Courses:** Data Structures and Algorithms, Object-Oriented Programming, Numerical Computation, Statistical methods.
- **Extra Curricular:** I participate in student developer communities like Facebook Developer Circle, Developer Student Club, and FUTO.Genesys Campus club, FUTO, Microsoft Tech Community, FUTO, I4G FUTO

WORK AND EXPERIENCE

[OwerriTechHub](#) – A Software Development Company **May 2020 – 2021 Backend Developer Intern.**

- Researching, designing, implementing, and managing software programs.
- Writing and implementing efficient code.
- Working closely with other developers, UX designers, and business and systems analysts.

[Free- Lance-Developer](#) – Building web applications for potential customers **September 2020 – 2021: Software Developer**

- Built a restaurant web application for selling and ordering food

Upskill Network - WordPress Developer Intern April 2022-July 2022

Designed, developed and maintained websites using the WordPress platform

Genesys Tech Hub- Backend Developer Intern. Nov. 2022 - June 2023

- **As an intern, I collaborated with talented frontend developers, designers, and product managers to build and deploy a working prototype. Communication is key to aligning everyone's efforts and understanding project requirements and expectations.**

- Part of my responsibility includes testing and fixing bugs to ensure the backend operates flawlessly. I also got the opportunity to optimize the server-side code for better performance, making the application faster and more efficient.
- Throughout my internship, I learned from experienced developers, got feedback, and continuously improved my coding skills. This hands-on experience allowed me to grow both personally and professionally, setting the foundation for a successful career as a backend developer.

PhreeTech - Backend Developer Intern. July,2023 - till date.

- As a backend developer intern at PhreeTech, My role involves collaborating with the software development team to build and maintain the server-side components of web applications or software systems.

PERSONAL PROJECT

Restaurant Web Application *November 2020*

URL: (<https://tastybites.herokuapp.com>) .

GitHub: (<https://github.com/phyniaejiofor/restaurant>)

URL: (<https://geek-lms.netlify.app/signup>)

GitHub: (<https://github.com/Akolite98/Post-it>)

Awards/Volunteer roles

*Core team member, Google Developer Students Club, Federal University of Technology Owerri University (September 2021 - september,2022).

*A core team member, Ingressive for Good (may 2022-present)

*Campus Director of BCAT(Blockchain and Cryptocurrency awareness Tour) for the Federal University Of Technology Owerri where I lead a community of Blockchain enthusiasts in my institution which includes Blockchain Developers, traders, Defi, Writers, etc in the Blockchain Space

SKILLS

Engineering Skills: Data structures and algorithms, UNIX/LINUX.

Coding Skills: HTML, CSS, Bootstrap, JavaScript, Node, PHP,Solidity

Personal Skills: Project Management, Team Player, Good Communicator, Research, Problem Solving, Collaboration, community Leader.
