PROFESSIONAL SUMMARY

I am a fast-learning and enthusiastic UI/UX designer with three years of experience as a product owner. I love creating visually appealing interfaces that enhance user experience. I'm skilled in conducting user research, wireframing, prototyping, and a little bit of interaction. I aim to optimize product functionality and usability. I am a strong collaborator and communicator, passionate about translating user needs into intuitive and engaging designs.

EXPERIENCE (DESIGN)

October 2022 – Present: Stutern (SGA), Nigeria (UI/UX Designer)

I collaborated with other design team members in conducting user research for the ChowNow project.

- Brainstormed and drew sketches for the ChowNow App.
- I created a design library that sped up the design process by 40% and helped in easy development.
- I promoted effective communication between designers, developers, and data analysts during the product's development.

<u>Freelance - August 2020: Uptima, Nigeria (UI Designer)</u>

- I designed a wireframe of their landing page.

- I designed the High-Fi design of their landing page.

- I designed the mobile view of the landing page.

EXPERIENCE (PRODUCT OWNER)

<u>February 2020 – January 2023: Enyata, Nigeria (Product Owner)</u>

- I managed the development of the Cam Diaries E-commerce website and Mobile App.

- I managed the development of the Moove Africa Inventory App.

- I managed the NIBBS POS automation process and increased user engagement and retention by 35%.

- I managed Kafene's Nigerian development team.

<u>May 2022 – September 2022: WajuSoft, United States (Product Manager)</u>

- I managed and oversaw the development of the new ED web Application.
- I mentored 2 product manager interns at Wajusoft.
