About Me

I am an ambitious undergraduate student fueled by curiosity and driven to make a difference. I am passionate about the automobile, robotic and chemical engineering field and eager to apply my theoretical knowledge to real-world challenges. I am committed to continuous growth, innovation, and exceeding expectations. With a strong academic foundation and a hunger for learning, I possess a sharp analytical mind and a natural aptitude for problem-solving.
I am determined to leverage my passion, dedication, and drive to add value to your organization and exceed expectations

Computer Skills

- Graphics Design
- Python programming language (intermediate)
- C programming language (Basic)
- User interface and User experience design
- AUTOCAD (Basic)
- MATLAB (Basic)
- Fluidsim, Proteus, flow code
- Use of word and spreadsheet packages

Work Experience

Over 2 years of remote graphics design experience, delivering captivating designs for diverse industries. Proficient in Adobe Creative Suite, I create compelling designs that communicate brand essence and captivate target audiences. Exceptional remote collaboration skills and a passion for staying ahead of design trends. Committed to exceeding client expectations and creating lasting visual impact
