EXPERIENCE

Associate Software Engineer

GlobalyHub Pvt. Ltd

📅 2022 Oct - 2023 June

📍 Lalitpur, Nepal

- Took on the primary role for the development and maintenance of REST API, including documentation, testing, debugging, and troubleshooting of code.
- Conducted thorough testing of applications and efficiently resolved bugs.
- Implemented code refactoring to enhance code quality and performance.
- Designed and executed database schema for efficient data management.
- Played a key role in API maintenance, continuously improving code quality and delivering high-performance solutions.

Software Engineer Intern

GlobalyHub Pvt. Ltd

📅 2022 May - 2022 Sept

📍 Remote

- Demonstrated proficiency in core web technologies such as HTML, CSS, Bootstrap, PHP, Laravel framework, Git, Docker, and MySQL database during my internship period.
- Successfully acquired essential skills in HTML, CSS, Bootstrap, PHP, Laravel framework, Git, Docker, and MySQL database, contributing to my professional growth during the internship.

PROJECTS

Authentication and Authorization System

Created simple authentication and authorization system project to get familiar with node.js, express.js, jwt token, ejs template and mongodb database. ([Repo/Code](#))

Tool used: Node.js, Express.js, Jwt webtoken, MongoDB and EJS

Agentcis (Visit)

I successfully implemented a valuable feature called "related client." This new functionality effectively addresses the issue faced by applicants who lack their own email and contact information. In such cases, if the applicant has a relationship with another applicant already present in the system, the "related client" feature allows them to be linked together, enabling seamless management of their information within the platform.

Tool used: Laravel, Mysql, Docker and Blade

Employee Record Handling System

A centralized software solution for companies and organizations to maintain a record of their employees. This software serves as a centralized system for managing and organizing employee information, facilitating efficient HR processes and ensuring accurate and up-to-date records. ([Repo/Code](#)).

Tool used: Laravel, Mysql, Docker and Blade

Library used: [Fast Excel](#)

Blog Website

The main objective of this website was to provide a platform for users to create, read, update, and delete blog posts, as well as interact with other users through comments. ([Repo/Code](#)).

Tool used: Laravel, Mysql, XAMPP, HTML, CSS, and Blade

Form Validation

Created simple form and validated it's input field. ([Repo/Code](#)).

Tool used: PHP, XAMPP and HTML

TECHNICAL SKILLS

- **Language:** PHP, Javascript
- **Frameworks:** Laravel, Node.js, Express.js
- **Database:** Mysql, MongoDB
- **Web Technologies:** (REST API, JSON, HTML, CSS, Bootstrap)
- **Containerization:** Docker
- **Version Controlling System:** Git

EDUCATION

Bachelor in Computer Science and Engineering

Sharda University

📅 2018 -2022

📍 Greater Noida, UP, India

EXTRA CURRICULAR

3d Artist/ Video Editor

I like to utilize my free time by creating 3d models or by editing videos. You can find my work in my instagram page:
