**CLINICAL ROTATION SUMMARY**

---

**Internal Medicine - Blount Memorial Hospital, Maryville, TN**

- Performed physical exams on patients with various types of diseases, interpreted diagnostic imaging and labs, and developed treatment plans as well as documented in the EMR under supervision
- Participated in daily morning rounds with the medical teams on various floors
- Rounded in the ER daily during the afternoon to consult with the ER physicians and admit patients to the floor
- Assist in various procedures such as thoracocentesis and abscess drainage

**Women’s Health - Beginnings Birthing Center, Prescott Valley, AZ**

- Performed routine OB examinations such as prenatal check ups, postpartum examinations, breast exams, and pap smears
- Utilized portable ultrasound and dopplers to assess gestational age and to get fetal heart rate

- Assisted the midwives in the labor and delivery process for water births and ensured that the baby's APGAR score was normal
- Assisted in managing postpartum complications and started IV fluids in the mother as needed

### **Cardiovascular Surgery - Piedmont Hospital, Atlanta, GA**

- Scrubbed into various cardiovascular surgeries including coronary artery bypass grafts, vein harvesting, valve replacements, anomalous coronary artery repair and gained proficiency in surgical wound closures
- Observed PCIs and balloon mitral valvuloplasties in the cardiac catheterization lab
- Managed complex post-surgical cardiac patients in the CVICU under supervision
- Assisted the cardiac surgeon in intra-aortic balloon pump, drain, and pacing wire removals in the CVICU as well as physical therapy and wound care
- Rounded on preop and postop patients twice daily on the surgical floor and documented progress notes, admission notes, and discharge notes.

### **Emergency Medicine - Northside Hospital, Atlanta, GA**

- Evaluated level 2, 3, 4, and 5 acuity patients in the emergency room
- Performed various emergency procedures including foreign body removal, laceration repairs, digital blocks, I&Ds, fracture reductions, foley insertion, pelvic exams, pap smears, and wood's lamp exams.
- Reviewed labs, X Rays, CTs, and EKGs and developed management plans under supervision of my preceptor
- Provided oral case presentations to the providers for every patient and dictated the HPI and ROS in the EMR.

### **Pediatrics - Yahia Rahim, MD, Panama City, FL**

- Gained proficiency in performing newborn and pediatric well exams as well as sick visits
- Educated families on the child's growth trajectory as well as explained the importance of following the vaccine schedule
- Assessed various acute illnesses including pharyngitis, pneumonia, conjunctivitis, COVID, flu, RSV, bullous impetigo, allergies, and otitis externa and developed management plans under supervision of my preceptor
- Performed procedures such as ear irrigations

### **Urgent Care - Lanier Urgent Care, Gainesville, GA**

- Conducted physical exams and assessed various acute illnesses including pharyngitis, otitis media, conjunctivitis, fractures, mastoiditis, gastroenteritis, cellulitis, UTIs, COVID, and flu
- Interpreted diagnostic labs, X-Rays, and EKGs and communicated results to patients

- Documented HPI, physical exam, assessment, and plan in the EMR
- Performed various procedures including nail removal, burn debridement, laceration repairs, suture removal, digital blocks, foreign body removal, fracture reductions, and steroid injections

#### **Family Medicine - Temple Medical Center, Villa Rica, GA**

- Provided preventative care through routine health screenings and physical exams while building rapport with the patients
- Ordered, interpreted, and informed patients of diagnostic lab and radiologic imaging results
- Maintained documentation of the patient's visit in the EMR including the HPI, physical exam, ROS, assessment, and plan
- Managed medication and treatment plans for chronic and acute diseases including hypertension, diabetes, hyperlipidemia, hypothyroidism, anxiety, depression, UTIs, syphilis, and genital herpes

#### **Psychiatry – Beal Wellness, Center for Neuropsychiatry, East Point, GA**

- Conducted initial psychiatric assessments by interviewing patients to gather information about their mental health history, symptoms, and current concerns
- Performed mental status examinations to assess the patient's cognitive and emotional functioning
- Assisted in diagnosing psychiatric disorders including depression, anxiety, ADHD, dementia, schizophrenia, bipolar, and personality disorders and collaborated with supervising psychiatric PA to develop individualized treatment plans for patients, including therapy, medication management, or other interventions.
- Conducted follow-up appointments to monitor patient progress and adjust treatment plans as necessary
