

# OMOYIBO VICTORY

+2348102567789, +2349079878199 -- [omoyibo.victory@gmail.com](mailto:omoyibo.victory@gmail.com)

## PROFESSIONAL SUMMARY

A full stack software developer with mid knowledge in software development life cycle, analysis and design. Area of expertise includes core front end development using HTML, CSS, Java- Script, j-Query, and Vue JS and back end development using Microsoft SQL Server, MySQL, .Net Core, and PHP/Laravel. A very good team player and tech savvy, looking for a reputable company to grow and gain hands-on expertise on applicable skills.

## SKILLS

- HTML, CSS, JavaScript, J-Query, and Vue Js
- C#, .Net Core, Entity Framework Core
- SQL, MySQL, PHP/ Laravel
- Agile Methodologies
- Good communication
- Critical reasoning for innovation

## WORK HISTORY

### **Associate Software Engineer** (Decagon) 10/2023

#### **Duties:**

- Applied ASP.Net Core, Entity Framework Core, and SQL Server to develop a variety of websites, showcasing versatility in implementing back-end solutions and integrating front-end technologies for diverse web projects.
- Practiced Agile methodologies in project execution, fostering iterative development, collaboration, and adaptability to evolving project needs while ensuring efficient and timely delivery of website solutions.
- Engaged in continuous learning and exploration of new technologies, demonstrating a proactive approach to staying updated with industry trends and advancements to enhance development capabilities.

### **Full Stack Developer (Allsmartcare)** 09/2023 – 11/2023

#### **Duties:**

- Led a team comprising a front-end and back-end developer, overseeing their collaborative efforts throughout the redesign process. Facilitated effective communication and coordination to ensure a cohesive approach to the project.
- Managed the redesign project of the Allsmartcare website, leveraging technologies such as HTML, CSS, JavaScript, jQuery, Laravel, MySQL, and API integrations. Implemented a strategic plan to overhaul the site's functionality and aesthetics.
- Directed the team's efforts toward a successful redesign that met or exceeded project objectives. Utilized a combination of front-end and back-end technologies to enhance user experience, functionality, and performance.

## **Full Stack PHP/Laravel Developer (Bankable Wisdom Solution Ltd) 05/2022 – 12/2022**

### **Duties:**

- Expanded the functionality and user experience of the website by developing and integrating additional pages to both the admin and user sides. Implemented new features and improved existing interfaces using PHP and Laravel, ensuring a seamless and user-friendly platform.
- Led the migration process by transferring files and introducing additional tables to the existing database structure. Ensured data integrity and optimized database performance to accommodate new functionalities and meet evolving business requirements.
- Collaborated with the team to troubleshoot technical issues, resolve bugs, and enhance website functionalities. Engaged in proactive problem-solving, ensuring a stable and reliable web application.

## **Full Stack Laravel Developer (Soccer Hunters), 03/2022**

### **Duties:**

- Led the development of both client-facing and admin interfaces using HTML, CSS, jQuery, and JavaScript, crafting intuitive and visually appealing user experiences while ensuring functionality and responsiveness across platforms.
- Leveraged Laravel and MySQL for back-end development, employing robust database structures and implementing efficient server-side functionalities to support the user-facing components.
- Successfully integrated PayStack, a payment gateway solution, to facilitate secure and seamless transactions within the platform. Implemented the necessary back-end configurations and front-end integration to ensure a smooth payment process.
- Implemented an email notification system within the platform, enabling automated and timely communication with users. Utilized technologies and best practices to ensure reliable delivery of notifications for various user interactions

## **White Hat Academy, Port Harcourt (Full Stack Web Development Internship) 06/2021 – 12/2021**

### **Duties:**

- Developed different user interfaces and databases for websites using HTML, CSS, JavaScript, J- Query and Vue Js for the front end and SQL, MySQL, PHP and Laravel for the back end.

## **EDUCATION**

**Full Stack .Net Software Engineer - 2023**

**Full Stack PHP/Laravel Website Development - 2021**

## **HOBBIES AND INTERESTS**

- Coding, studying, Teaching, and travelling.
