Hospitalist

Dedicated and patient-focused professional with substantial experience in executing critical medical procedures, managing complex clinical situations, optimizing patient comfort during complex interventions, and consistently maintaining patient safety.

Qualifications Summary

- Proven history of success in managing acute medical conditions, conducting thorough patient evaluations, developing targeted treatment plans, and executing cost-effective healthcare delivery.
- Adept at fostering interdisciplinary collaborations, optimizing patient care transitions, and enhancing continuum of care from emergency services to discharge in high-pressure healthcare environments.
- Expert at maintaining meticulous and up-to-date patient documentation, leveraging advanced medical technologies, and advocating for patient education to drive health outcomes and patient empowerment.
- Highly organized and resourceful self-starter with multitasking, prioritization, leadership, people management, time management, interpersonal, and written/verbal communication skills.

Career Experience

Franciscan Health and Hospital System, Crown Point IN Physician/Hospitalist

2020 – Present

Execute critical medical procedures on a regular basis, including endotracheal intubations, central venous line placements, and arterial line placements to ensure patient safety and comfort. Utilize electronic medical record systems, such as EPIC, MEDITECH, and CERNER EMR, to streamline documentation processes and enhance quality of patient care.

- Achieved excellence in adult patient management within a hospital setting by ensuring smooth transitions from Emergency room triage to inpatient care and ultimately to discharge upon medical stability.
- Delivered comprehensive attention and personalized treatment for each patient by dedicating over 80 hours per week to direct patient care, resulting in improved patient outcomes.

Georgia Army Reserve National Guard Field Surgeon

2017 – Present

Assess military members, analyze and interpret laboratory and radiology reports, examine medical histories, and conduct medical examinations to determine continued medical eligibility of military members. Provide education and guidance to patients on illness, treatments, prevention, and health management.

- Directed staff members in efficient management of daily operations through inspiring leadership.
- Provided medical care to military personnel and addressed various non-life-threatening health concerns/medical issues.

Franciscan Alliance Health and Hospital System, Olympia Fields, IL Internal Medicine Resident

2017 – 2020

Managed and treated diverse health issues, encompassing serious, chronic, and complex illnesses for ambulatory and inpatient patients on a regular basis. Conducted comprehensive patient evaluations, encompassing medical histories, physical assessments, and consultations, to formulate tailored treatment plans. Ordered diagnostic tests and prescribed medications, procedures, and therapies for acute and chronic infections, injuries, and illnesses. Administered preoperative evaluations, collaborated with surgeons regarding patients' risk statuses, and recommended appropriate interventions to minimize risks. Fostered collaboration with diverse healthcare teams to strategically coordinate and advance continuum of patient care as well as engaged with patients in development of tailored health improvement plans.

- Maintained accurate and up-to-date patient records, capturing detailed information regarding care and services rendered.
- Achieved seamless coordination and delivery of treatment plans in a cost effective, financially responsible manner, without compromising high-quality patient care.

- Attained advanced airway management expertise by completing "The Difficult Airway Course," equipping skills in surgical airway creation, fiber optic-assisted intubation, and proficiency in video and direct laryngoscopy.
- Performed critical medical procedures and efficiently navigated multiple electronic medical record systems, such as EPIC, MEDITECH, and CERNER EMR, contributing to streamlined healthcare delivery and documentation accuracy.
- Empowered patients and their families with comprehensive knowledge about physical conditions, mental health, ailments, diseases, therapies, and medications, leading to improved health and satisfaction.

Additional Experience

Quality Assurance Supervisor, Crider Foods Inc., Stillmore, GA (2010 – 2013)
