A .NET developer with over 4.6 years of experience, specializing in ASP.NET MVC. Proficient in developing scalable, high-performance web applications using the latest Microsoft technologies. Adept in implementing security measures, database integration, and unit testing. Strong understanding of software development life cycle and Agile methodology. A dedicated and motivated individual who is always eager to learn and keep up with the latest developments in the industry. Passionate about delivering high-quality software solutions to meet business needs.

Experience

JULY 2021 – PRESENT

Software Developer/ManekTech, Ahmedabad, Gujrat, India

As a Software Developer, I have made significant contributions to the success of your organization. My deep understanding of the .Net framework and related technologies, including C# and SQL Server, has enabled me and my team to design, develop, and maintain high-quality software solutions that have met business requirements and exceeded expectations. My expertise in software development methodologies, such as Agile, has enabled me to collaborate effectively with cross-functional teams and communicate effectively with stakeholders. I have consistently delivered projects on time and within budget, demonstrating a strong work ethic and attention to detail. By doing this all this work my current organization has rewarded my work with an "Stand Out Performer" on 11th Anniversary.

JAN 2019 – JUN 2021

Jr Software Developer/BWSSL (BrightWork Support Services LLP), Ahmedabad, Gujrat, India

Assisted in current running project and worked as individual developer and in this organization. Working as individual JR. developer I have done many mistakes in this organization and I would love to thanks my seniors who have guided me in right path.
