### Overview

I possess a diverse background in management, education, and information technology, which has equipped me with valuable skills such as analytical thinking, leadership, teamwork, strong communication, and critical thinking. As the head of the ICT department at Peakfield Academy Jos, I have a deep understanding of technology's role in achieving organizational goals, supported by my computer science background. My experience as a general manager at JOTRAS World Kaduna and BREDT Agro LTD demonstrates my successful track record in managing people, projects, and implementing effective strategies for business success. I offer a unique combination of management and technical skills that are highly relevant in today's dynamic business environment, and I am eager to apply these skills in a challenging role with opportunities for career growth.
