SKILLS

- **UI/UX Design Skills:** Proficiency in user interface (UI) and user experience (UX) design principles, including wireframing, prototyping, user research, and usability testing.

- **Graphic Design:** Proficiency in graphic design tools like Canva, Photoshop, Corel Draw, and Lightroom to create visually appealing designs.
- **Video Editing:** Ability to edit videos using tools like InShot and Renderforest, which can be valuable for creating interactive prototypes and multimedia elements in UI/UX design.
- **Workspace Tools:** Familiarity with collaboration and project management tools like G-suite, Slack, Trello, Notion, ClickUp, Microsoft Teams, and other similar tools for effective communication and project coordination.
- **Social Media Management:** Competence in managing social media accounts, preparing posting plans, crafting publicity campaigns, and analyzing analytics data. Familiarity with social media management tools like Hootsuite, Buffer, Preview App, and GridMaker.
- **Communication Skills:** Excellent verbal and written communication skills are crucial for interacting with team members, stakeholders, and clients to convey design ideas and concepts effectively.
- **Technical Proficiency:** Proficiency in relevant design software, such as Figma, for creating interactive prototypes and mockups.
- **Problem-Solving:** Strong problem-solving abilities to address user experience issues and find creative solutions.
- **Attention to Detail:** A keen eye for detail to ensure designs are pixel-perfect and aligned with user-centered design principles.
- **Collaboration:** Ability to work collaboratively with cross-functional teams, including developers, product managers, and marketers, to bring design concepts to life.
