## TECHNOLOGIES/SKILLS

- C#
- .NET
- JavaScript
- HTML 5
- CSS 3
- WinForms
- Entity Framework
- ADO.NET
- MySQL
- Postman
- Swagger
- Docker
- Azure
- Windows Server
- ReactJs
- ASP.NET Core MVC
- ASP.NET Core WEB API
- Agile Methodology
- Quality Assurance in Programming

## TOOLS

- Visual Studio
- Teams
- Slack
- GitHub
- Jira
- Microsoft SQL
  - Microsoft 365
- Windows Server
- Google workspace

development projects

- Followed regulations and legal guidelines to ensure compliance with regulatory agencies and legal considerations
- Performed calculations to determine costs, community use and other aspect of potential strategies
- Tracked individual proposals and provided updates to relevant stakeholders
- Reviewed plans for accuracy and compliance
- Liaised with local and regional authorities and conducts presentations.

## PROJECTS
