PROFESSIONAL EXPERIENCE

Data and Market Analyst
WLB Consulting, Lagos (Part-Time) | August 2023 - PRESENT
- Developed a new market research methodology that resulted in a 15% increase in the accuracy of market forecasts.
- Created a new data visualization's dashboard that has improved the company's decision-making process by making it easier for executives to access and understand key data insights.

Financial Billing Analyst
mPharma Health Nig LTD, Lagos | November 2022 - PRESENT
- Achieved a 90% reduction in the run time of the Supply and Sales data ETL process through the implementation of Excel VBA.
- Developed a billing chart for process optimization using Microsoft Excel.
- Collaborated closely with Key Account Managers to address billing complaints and streamline partner facility billing, resulting in a 36% reduction in billing time.
- Created training materials for stakeholders to enhance understanding of the billing template for each business unit.
- Produced weekly and monthly financial reports for C-suite Executives.
- Conducted monthly financial analysis of partner facilities to provide investment recommendations to Business units.
- Performed a comprehensive analysis of all billing procedures, identifying areas for improvement.

Inventory Analyst
mPharma Health Nig LTD, Lagos | September 2021 - October 2022
- Efficiently managed inventory levels to ensure product availability while minimizing storage costs.
- Conducted regular inventory audits, identifying and resolving discrepancies, resulting in significantly reduced errors.
- Developed and maintained demand forecasting models, leading to a substantial reduction in instances of stockouts.
- Collaborated with the Functional Excellence team to create ERP system screen options that were not available.
- Utilized data analysis techniques to pinpoint slow-moving items, proposing necessary inventory adjustments.

Data Analyst Intern
mPharma Health Nig LTD, Lagos | October 2020 - August 2021
- Documented, prepared, secured, verified, and ensured data integrity throughout its lifecycle.
- Cleaned and validated data for analysis.
- Reported anomalies and discrepancies.
- Facilitated data acquisition, reception, logging, and cataloging.
