## EXPERIENCE

### ➤ **Web Developer Internship: - Ashore Systems Pvt. Ltd. (November 2022-July 2023)**

- In this internship I have worked on HTML, CSS, JS, Laravel, CodeIgniter, SQL. I have done the projects and made some APIs.

## PROJECT

### 1. **Student Attendance Management System (HTML,CSS,PHP,MYSQL)**

- Student attendance management system deal with the maintenance of the student's attendance details.
- The attendance project has three user module for run the system Admin, Staff and Student. It is generates the attendance of the student on basis of presence in class. It is maintaining daily basis of attendance, the staff will be provide with the separate username and password to make student attendance.
- Administrator generates unique username and password for all staff while adding staff detail.
- All staff maintain attendance of student, generate reports month wise, date wise.

### 2. **Pet Shop Management System (HTML, CSS, Bootstrap ,PHP,MYSQL)**

- The projects are to provide a web-based interface to a pet shop owner to manages his pet shop activities. This system provides an option for storing and managing.
- The basic information about pets and pet products in the shop. An option for storing and managing the sales details of the shop. Storing and managing the basic information about the customer.
- Track the information about sold pets and products to a customer. This system is written in PHP and MYSQL. However, the front end codes use for the main page, insertion, search, deletion are displayed.
- In this system, the employee can add animals and birds. Eventually, the employee can also delete animals and birds, also update it. Continually, products can also be add, delete and update. They can see the sales details of the product they have sell.

### 3. **Online Shopping System (HTML, CSS, Bootstrap, CodeIgniter, Ajax , JavaScript , MYSQL)**

- Display all the available categories for shopping on the home page.
- Admin has the authority to add new particulars to the items list whenever needed.
- Permission to the administrator to remove items, anytime.
- Allows the admin to modify the price of each item, whenever required or felt like. It generate the bill with total amount of product.
- Admin has the authority to update the description of each item
