Objective

I am seeking a position as a Nurse Practitioner to better serve the community of clients that I have worked with and cared for as a Nurse Practitioner through compassionate care. I want to be able to provide the best experience for patients to feel respected and always be assured that they are receiving the best possible care. I plan to specifically advocate for those with substance abuse problems having 5 years experience with treating Substance Use Disorders and 3 years experience directly treating co-existing disease for PWID such as Hepatitis C.

State of Michigan, Registered Nurse #4704288086 10/10/11
Family Nurse Practitioner - Board Certified, September 26, 2018

Employment History

Saginaw Chippewa Indian Tribe – Nimkee Clinic/ Tribal Court

01/06/2018 – current

Responsibilities: I am currently a Nurse Practitioner providing acute care, Medication Assisted Treatment and treatment for Hepatitis C. My responsibility is primarily patient care. I provide regular medication checks for chronic conditions such as hypertension and substance abuse disorders including chronic mental health disorders such as depression and anxiety. As a DATA waived provider I am able to see up to 100 individuals for the treatment of opioid use disorder with FDA approved medications such as Sublocade, Suboxone and other buprenorphine products. I have created all policies and procedures with National Experts Cara Poland and William Marrone which have shaped the MAT program at the Nimkee Clinic from its initial stages and was the first provider to prescribe buprenorphine and monitor client's progress. I work in a collaboration with my peers; other providers at the clinic, Behavioral Health therapists, Case Managers and the Judge at the SCIT Tribal Court. I am a certified Trainer of how to distribute and administer NARCAN for overdose prevention. I have 4 years experience in providing Acute Care and Chronic Care for patients during regular visits. I am competent in laboratory analysis and POC testing for acute diseases and chronic conditions. I can easily use the Electronic Health Records and know its functions well to provide care and communicate with peers. I have extensive knowledge of rooming patients in addition to my duties as a Nurse Practitioner. I am competent in prescribing methods using best practices and what medications are available at the Nimkee Clinic and have a positive working relationship with Pharmacy Staff. As a Nurse I am focused on providing information and education for lifestyle changes to help individuals develop new behavior patterns to create a healthier lifestyle.

Saginaw Chippewa Indian Tribe - Andahwod Continuing Care Community and Elder's Services - Mt Pleasant, MI

11/22/10 – 01/06/2018

Responsibilities: I am responsible for administering medications, managing resident's appointments, reordering medications, adjusting medication dosages and frequencies and changing medications by direction of doctor's orders, Staying in direct contact with doctors by using Electronic Health Services, reporting changes with elder's condition, managing staff assignments for the day including nurse's aid groups and resident service aids transport assignments, providing support about disease process and answering any questions clients have to alleviate concerns, dressing changes, being a social support for client's and their families, being a resident advocate, holding other staff member's accountable for their job responsibilities and making sure the corresponding assignments are done thoroughly and correctly. I have experience with all medication administration, monitoring medication changes, adverse reactions and thorough experience with electronic health records, sharing information with doctors and pharmacy as necessary. I am responsible for monitoring the condition of all patients and developing an effective Nursing Care Plan with conditions for evaluation of effectiveness based on wellness indicators.

Saginaw Chippewa Indian Tribe - Soaring Eagle Casino and Resort

Mt Pleasant,MI

11/2006 - 11/22/10

Responsibilities: Cashier. I was a cashier at the Casino with a part-time position for 3 years. I was responsible for large amounts of money, completing transactions without error and providing customer service to all guests.

Skills and Abilities

I am very patient centered and focus on individual care. I am a compassionate individual and have pride in my ability for motivational interviewing. I am able to understand patient needs and where they are in their personal motivation for change. Besides pharmacological intervention, I believe in the nursing process and applying treatment with patients that gives opportunity for behavioral change and a healthy lifestyle. I specialize in Medication Assisted Therapy with a current seat on the Medication Assisted Therapy Team at Nimkee Clinic.

Honors and Activities
