WORK EXPERIENCE

ED RN-Charge Nurse | Loma Linda University Health Medical Center, Murrieta, CA | May 2015-Present

- Identify and treat life-threatening illnesses, as well as the ability to assess patients quickly and treat them during critical situations.
- Obtain understanding of healthcare and be able to deliver great care to patients of all ages.
- Proactively coordinate stroke patients' treatment; use a standardized stroke scale to assess neurological dysfunctions, resulting in fewer delays in care faster TPA initiation.
- Coordinate care of STEMI patients to ensure safe and prompt transport for further intervention.
- Constantly converse and work alongside medical professionals.
- Demonstrate leadership by enhancing work procedures and assisting in the training of others.
- Successfully collaborate with a wide range of coworkers to accomplish goals and address challenges pertaining to our services.
- Resolve interpersonal issues by active listening, consensus-building, and relationship-building.

ED RN-Charge Nurse | Palo Verde Hospital, Blythe, CA | April 2010-June 2018

- Possessed strong critical thinking skills and the ability to conduct a brief, focused interview with a strong ability to evaluate the patient's physical condition.
- Executed quick, proper judgments and educated patients throughout the triage process.
- Collaborated with interdisciplinary colleagues and operated under pressure.
- Delegated responsibilities to staff members, capable of adjusting to fluctuates in workload, and capable of multitasking while remaining focused.
- Utilized communication skills to convey an awareness of the expectations of the patient and the family.
- Obtained and utilized appropriate knowledge of potential cultural and religious concerns.
- Assesses the severity of a patient's condition, prioritizing the use of limited room resources to ensure that all patients receive quality care in accordance with their needs.

Medical-Surgical Telemetry RN | Temecula Valley Hospital, Temecula, CA | February 2015-March 2016

- Provided a wide range of general nursing care services in areas of vital signs, EKG, telemetry reading, phlebotomy, catheters, feeding tubes, IVs, and central lines.
- Provided bedside treatment and care for patients on the medical-surgical telemetry floor.
- Delivered pre- and post-operative nursing care.
- Handled and administered appropriate medication carefully.
- Educated patients and their families on disease processes, medical-surgical procedures, and other aspects of treatment regimens, including medication and pain management approaches.
- Facilitated admissions, discharges, and transfers.
- Effectively collaborated with a multidisciplinary team of medical and health care specialists that included a physician, nurse manager, dietician, social worker, case manager, and physical therapist.
- Created chart entries and other clinical documentation; assessed patients utilizing extensive evaluation methodologies and excellent clinical judgment.
- Delivered physician-ordered treatment and evaluated responses with the goal of identifying issues and adverse side effects as soon as possible.
- Performed nursing duties in order to provide high-quality care while adhering to rules and regulations.

Rehabilitation RN | Eisenhower Medical Center, Rancho Mirage, CA | September 2011 - February 2012

- Assisted patients with disabilities and/or chronic illnesses in achieving and maintaining full function.
- Established long and short-term goals for therapeutic services to support patient growth
- Implemented treatment plans after discussing the patient's needs with the multidisciplinary team.
- Assisted patients in adjusting to a new way of life while also offering a therapeutic atmosphere for the growth of patients and their families.
- Implemented self-care treatment practices based on scientific nursing theory that enhance physical, psychological, and spiritual wellness.
- Executed hands-on nursing care to produce the best possible results for patients.
- Directed and supervised ancillary nursing employees using professional judgment, problem-solving approaches, and time-management principles and appropriately delegated.
