

OYEWOLE EMMANUEL

Software Developer
godlytone@gmail.com
0906708780

PROFESSIONAL SUMMARY

Results-driven and detail-oriented Software Developer with 5 years of experience in designing, implementing, testing, and maintaining innovative software solutions. Adept at collaborating with cross-functional teams to analyze user needs and deliver high-quality software applications. Proficient in various programming languages, with experience in full software development life cycle. Demonstrated ability to quickly learn and apply new technologies. Excellent problem-solving skills and a passion for staying up-to-date with industry trends. Committed to producing efficient and scalable software to meet both user and business needs.

EMPLOYMENT HISTORY

Frontend Developer, Applinent Technology , Remote

07/2019 - 11/2020

1. Led the frontend development efforts, translating design mockups and wireframes into responsive and user-friendly web applications.
2. Collaborated with product managers and QA teams to incorporate user feedback and address issues, contributing to iterative improvements and feature enhancements.
3. Utilized version control systems such as Git to manage and track changes in the codebase, enabling efficient collaboration and streamlined development workflows.
4. Implement interactive features and dynamic content using JavaScript frameworks/libraries (React).
5. Work closely with UI/UX designers to implement design specifications

Content Creator, House Of Elysian(Contract), Lagos

01/2021 - 11/2021

1. Contribute to the development of new products or features, providing creative input in design, functionality, and user experience.
2. Collaborate with UX/UI designers to create visually appealing and user-friendly interfaces.
3. Provide leadership in creative projects, guiding team members and fostering a positive and innovative work culture.
4. Produce engaging and high-quality content across various mediums, such as written content, visual content, videos, or multimedia presentations.

Full Stack Devloper, OIC Hub LTD , Osun State

12/2020 - 11/2023

1. Collaborate with DevOps teams to integrate continuous integration and continuous deployment (CI/CD) processes.
2. Stay updated on emerging technologies, industry best practices, and trends in full stack development.
3. Design and maintain databases, ensuring data integrity, security, and efficient query performance.
4. Implement database migrations and optimize queries for improved efficiency.
5. Use version control systems (Git) to manage and track changes to both front-end and back-end code.
6. Conduct unit testing, integration testing, and end-to-end testing.
7. Implement security best practices for both front-end and back-end components.
8. Collaborate with cross-functional teams, including front-end developers, back-end developers, designers, and other stakeholders.

EDUCATION

Bachelor of Science, Adeleke University

1. I made a transition into software development after completing my degree in Economics. Leveraging the analytical and problem-solving skills honed during my economics education, I delved into the dynamic world of coding and software engineering.
2. My ability to analyze data and understand complex systems, skills cultivated during my economics education, have proven invaluable in my role as a software developer.
3. I've found parallels between the systematic analysis required in economics and the structured problem-solving approach inherent in software development.
