PROFILE

Dedicated and highly skilled Internal Medicine physician with a comprehensive background in patient care and a strong commitment to promoting health and well-being. I completed my residency in Internal Medicine in Brooklyn, NY, where I honed my clinical skills and gained valuable experience in managing a diverse range of medical conditions. Fluent in both English and Spanish, I bring effective communication and cultural competence to the healthcare setting, facilitating seamless interactions with a diverse patient population. Eager to contribute my expertise as a Hospitalist, I am passionate about delivering high-quality, patient-centered care and am well-equipped to thrive in a dynamic hospital environment.

HOBBIES

One of my favorite hobbies is to exercise. I particularly prefer to do weight resistance training and running to condition my cardiovascular system. I have been doing this for 10 years and I found that this has to help me create a balance between my physical, personal, and emotional health. My running personal goal is 3-miles in 25 minutes. Also, I enjoy mentoring undergraduate and first semester students in their transition from college to medical school.
