Summary

I'm a passionate, calm, and self-motivated front-end developer. I am a graduate
who intends to pursue this career path and give my best. I'm very eager to learn and I'm
seeking to leverage this opportunity to gain experience from senior developers and also to
apply what has been learned to solve real-life issues.

Education

Bachelor of Engineering (B.Eng)   2017 – 2023
Electrical/Electronic Engineering
Federal University of Technology, Owerri

Project Experiment

Links to the live hosted project experiments are in the portfolio some of them include;
- Movie list: This consumes an API and returns a visual display of the movies searched and some of the content available
- Draggable Gallery: This shows a grid of images that can be dragged and dropped and also can be sorted out with some search feature
- Zuri Landing page: A responsive cloned website of Zuri Inc. that was attempted during one of the internships.
- Skyline: This is just a simple static webpage used to demonstrate my knowledge of HTML and CSS. Nothing functional here. It was amongst the very first sample sites I built.
- HelpMeOut: This is a simple Chrome extension that records the screen of a client on the browser and makes the video available for download.
  Etc.

Soft Skills
• Communication.

• Collaboration.
• Adaptability.
• Research.

Hard Skills

- HTML
- CSS
- SASS
- Tailwind
- GIt / Github
- JavascriptVersion Control (Git)
- ReactJS

Internship
• Intern Hub, 2019.
• Zuri Training Internship, 2022
• Future Academy Africa, 2022
