Neptune, NJ
PrimeCare Medical Inc

Dear Sir/Madam,

I am a board-certified Physician Assistant in Pennsylvania and New Jersey with 1-year clinical experience in Family Medicine, Internal Medicine, General Surgery, Pediatric Medicine, OB/GYN, and Emergency Medicine. I am writing to express my interest in this position as a hospital medicine physician assistant.

In each specialty, I collaborated with nurses, resident physicians, advanced practice providers, and attendings, formulating diagnoses of acute and complex chronic conditions. Working in tandem with a team, I managed 10- 25 patients ranging from 19 years old to 85 years old within a 12-hr shift. Conditions that I have 1 year experience treating are patients with Heart Failure, Atrial fibrillation, Atrial flutter, SVT, Ventricular tachycardia/fibrillation, unstable angina, Prinzmetal variant angina pectoris, ST-segment elevation, Non-ST- segment elevation, aortic dissection, aortic stenosis, Essential hypertension, Hypertensive emergency, pericardial effusion, cardiac tamponade, acute pericarditis, hypertrophic cardiomyopathy, acute endocarditis, peripheral artery disease, chronic venous insufficiency, DVT, sick sinus syndrome, hypertriglyceridemia, hypercholesterolemia, orthostatic hypotension, atrioventricular block, asthma exacerbation, pulmonary embolism, COPD exacerbation, pneumonia, influenza, acute bronchitis, spontaneous pneumothorax, tuberculosis, sleep apnea, subarachnoid hemorrhage, giant cell arthritis, stroke, migraine/cluster headaches, concussion, hyper/hypothyroidism, adrenal insufficiency, diabetes mellitus, herpes simplex virus, syphilis, pelvic inflammatory disease, benign prostatic hyperplasia, UTI, cellulitis, sepsis, Lyme disease, delirium, urinary retention, pyelonephritis, nephrolithiasis, AKI, chronic kidney disease, spontaneous bacterial peritonitis, clostridium difficile, small bowel obstruction, diverticulitis, constipation, appendicitis, celiac disease, inflammatory bowel disease, acute/chronic pancreatitis, clostridium difficile, GERD, hepatitis, acute cholecystitis, cirrhosis.

Additionally, some of my responsibilities included completing history & and physical examinations, documenting progress notes or discharge summaries, assessing for risks associated with medication side effects, electrolyte disturbance, medication reconciliation, ordering, interrupting, chemistry panels, urinalysis, ECGs, X-rays, doppler ultrasound, MRI, CT scan, CT coronary angiogram scans, exercise/pharmacological stress test, transthoracic/ transesophageal echocardiogram and performing non-invasive bedside procedures under the supervision of an attending.

Overall, my experience in each specialty empowered me to be a confident physician assistant, utilize my critical thinking skills, and establish ongoing communication with my team, patients, and their families to improve the continuity of care. I would welcome the chance to meet with the team and you to learn more about this position. In the meantime, I can be reached at 754-204-1358 or ss1688@pcom.edu. Thank you for your time and consideration.

Very truly yours,

Siani Snaith, M.S., PA-C
