

# Noah Oladele

Frontend Engineer

## 👤 Profile

- I am a highly skilled and experienced Front-end Engineer with a track record of delivering innovative and high-quality software solutions across diverse industries, including hospitality and e-commerce.
- Using my expertise in SOLID programming principles and emerging web optimization tools, I design and implement progressive, responsive, functional, and scalable web-based solutions.
- I am adept at collaborating with cross-functional teams, including designers, developers, and product managers, at creating products that meet and exceed customer expectations.
- I thrive in fast-paced environments that challenge me to push the boundaries of what is possible. I am committed to automated and compliant development practices, quality assurance, and personal and professional growth.

## 📁 Employment History

### Frontend Engineer at Twinkle Interactive , Lekki

February 2021

- Built reusable components for applications in a private NPM Registry on Azure DevOps using React, Storybook, Jest and NPM.
- Implemented a React-based e-commerce website for a client in the retail industry that improved their online sales, resulting in a 30% increase in revenue.
- Developed a custom Angular-based CRM system for a client in the hospitality industry that improved their customer relations, resulting in a 40% increase in customer satisfaction.
- Participated in code reviews to ensure code quality and maintainability.
- Contributed to open-source projects and participated in the development of libraries and tools used by the wider front-end community

### Frontend developer at Arigo.ng, Lekki

March 2020 — February 2021

- Utilised modern front-end technologies to build responsive, mobile-friendly, and accessible user interfaces that provide an optimal user experience
- Participated in code reviews to ensure code quality and maintainability
- Developed unit and end-2-end tests for applications and test strategies for optimal performance and reliability testing.
- Created and maintained technical documentation for projects, ensuring compliance with industry standards.
