PROFILE:

A focused first-class graduate who is passionate about engaging in research and programs that would tackle complex challenges, solve global issues, contribute to innovative projects and ultimately bring positive impact in society. My vision is to lead a group of beautiful minds who are abreast with the prevailing issues bedeviling the continent of Africa and are committed to bringing technological, sociological and economic solutions accordingly. I have strong foundation in statistical theories, business intelligence and data analytics and have the competence to help institutions make data-driven decisions.
