**inDepth Interview**

Interviewer:	Interview Date:	9/29/2014
--------------	-----------------	-----------

Interview 9/29/2014  
Modified:

Initial contact with Dr. Srie Widuri: She will finish her Internal Medicine Residency in June 2015 and can start a Primary Care or Hospitalist position in July. Dr. Widuri is open to both Employed and Partnership Track opportunities. She has no preference for multi-specialty or single-specialty groups. If she does Primary Care, Dr. Widuri can do either all Outpatient or a combination of Inpatient and Outpatient. If she works as a Hospitalist, she likes the block schedule 7on/7off and prefers to work day shift. Dr. Widuri would prefer a closed ICU with no Procedures, Vent Management, or Intubations. She does not have plans for a Fellowship in the future. Dr. Widuri is very interested in Academic positions and does not mind doing Clinical Research, if needed. She is comfortable supervising the Mid-Level Providers in her practice. Dr. Widuri can speak Indonesian, Chinese, and English languages fluently.

Dr. Widuri is married and did not want to list her spouse's name. She has a one-year-old child. Dr. Widuri did not want to list her husband's occupation, because they plan to stay in East Brunswick, New Jersey, because they are settled there. She can commute up to an hour from her home.

Dr. Widuri is ready to start interviewing now and needs about two weeks' notice prior to her interviews in order to make arrangements with her schedule. She is available to interview via Skype or Face Time, if that is an option. Dr. Widuri can also receive text messages. She has started the registration process with the FCVS, and her formal CV is up to date and ready for review from her upon request.
