PROFILE

Results-oriented product designer with 2 years of experience in relaying user needs with current technological trends and a proven knowledge of accessibility, user research and usability studies. I have experience implementing mobile and web applications as a product designer from conception through deployment. Moreso, I am well-versed in Figma, Adobe XD and the essentials of UI/UX design principles, with the basic knowledge and application of HTML, CSS, and Javascript.

EDUCATION

Bachelor of Engineering in Food Engineering

December 2022

University of Uyo, Akwa Ibom State.

WORK EXPERIENCE

Lead Product Designer

January 2022 – Present

Target Tech Hub, Uyo, Nigeria

- Coordinated and led a team of UX designers and stakeholders on 4 design sprints, generating solutions that helped reduce design time and ease work-flow 10 times than the traditional method.
- Developed interactive and responsive prototypes to help stakeholders test usability before implementation.
- Collaborated with web development professionals to complete 8 full scope of web development projects which helped increase customer's engagement by over 70%.
- Implemented innovative solutions for product design, visuals and user experience to meet needs of individual web development projects.
- Identified and resolved problems uncovered by testing customer feedback.

UI/UX Design Instructor

April – December 2021

School of Graphics, Uyo, Nigeria

- Created and modified designs for more than 20 clients using working models to conform with client's specifications, production limitations, and changes in design trends.
- Prepared wireframes, sketches of ideas, and blueprints using wireframing tools like Figma, pencil and paper custom to help reduce the ideation time by as much as 30%.
- Analyzed and evaluated feasibility of design ideas based on appearance, safety, function, serviceability, budget, production costs, design time and methods and market characteristics.
- Presented designs to developers and reports to stakeholders for approval, and discussed need for modification.
