Work History

2023-08 - Current

PHP/Laravel Developer

Info Science Labs, Hyderabad

Sendcux | Email Automation tool | Aug 2023 - Current

- Email Integration Expertise:
  Successfully implemented G Suite and Outlook integration with the website, enhancing user convenience and functionality.
  Developed and executed bulk data operations seamlessly in the background, ensuring uninterrupted user experience on the front end.
- Advanced Email Campaign Management:
  Engineered automated scheduling for email campaigns, along with robust tracking features for monitoring open, click, and reply rates.
- AI-Powered Email Optimization:
  Integrated AI capabilities to craft unique and spam-free emails, elevating the overall effectiveness of email marketing strategies.
- Transaction Management:
  Implemented and optimized API's for live transactions, enhancing the platform's capability to process payments efficiently and securely for end-users.

2022-05 - Current

Associate PHP Developer

Info Science Labs, Hyderabad

Social CPC | Sendcrux | Agent Portal | May 2023 - June 2023

- Certificate Management System:
  Developed and integrated a notification system to send alert emails for certificate expiration and generation events, promoting proactive certificate management.
- Image and Contact Management Modules:
  Engineered user-friendly modules for bulk image uploads and display, enhancing visual content management.
  Implemented a dynamic contacts module allowing seamless import/export from CSV files, with automatic field detection for increased flexibility.

Bizlia | | June 2023 - Aug 2023

- Module Development for Enhanced Experience:
  Designed and built new modules at BizLia to significantly improve user experience. These modules specifically address challenges related to certification applications, intricate paperwork, and time-consuming vendor portal registrations.
- Streamlined Liaison Services:
  Implemented modules to simplify and streamline BizLia's liaison services, aiming to relieve users from the complexities associated with certification processes and extensive paperwork.
