## Skills

## Interests

Manual Testing

Automation

Java

Python

Database My SQL, Oracle

API (POSTMAN)

Rest Assured (automate the testing of RESTful API)

Automation Frameworks:  
Data driven Framework, Hybrid Framework ,POM,Maven,TestNG  
JUnit, PyTest, Cucumber BDD Framework.

GitHub ,Jenkins (CI/CD)

## Objectives

To acquire a challenging and responsible position in a competitive IT field where my knowledge, ability and personal skills will be effectively utilized.

## Professional Summary

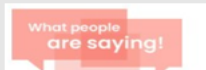

- **I am an immediate joiner LWD-21 July, I have 4 Year's of Experience.**
- **Working as Software Engineer from May 2022 to till Date in Bebo Technologies Private Limited Chandigarh .**
- **Worked as a Sport Analyst from June 2019 to March 2022 @ Hudl India Pvt. Ltd, Pune.**
- **I hold a Bachelor's degree in Engineering (B.E) from Pune University.**
- An Experienced professional having **4 years of Experience** in
  - Functional (Manual) Testing**
  - Automation Testing ( Selenium WebDriver with Java language binding )**
  - Automation Testing ( Selenium WebDriver with Python language binding )**
  - API Testing (POSTMAN and SOAP UI tool) Rest Assured (automate the testing of RESTful API**
  - Database- RDBMS ,My SQL, Oracle.**
- knowledge on **UNIX OS.**
- Worked on test management tool like- **JIRA** and **Rally Board.**
- Domain- **Experience in Salesforce , Insurance , & Sports Domain Project.**

## Experience Summary

- **4 years** of experience both **Manual** and **Automation Testing (Selenium+ Java, python )** experience in **UI Testing, API Testing/Web Service Testing** using **SOAP UI, POSTMAN, Rest Assured, Unix, SQL ,JIRA .**
- Worked on **Agile methodology** and participated in **scrum meeting.**
- Clear Idea about **SDLC, STLC** and **Bug Life Cycle**
- Well understanding **SRS** and identifying the required software **Test Scenarios.**
- Professional Software Experience in which includes Effective **Test Case Designing** and **Test Case Preparing** and **execution.**
- Extensive experience in **Functional Testing, Regression Testing, System Testing** GUI Testing.
- Experience in preparation of **automated test scripts** to perform **RegressionTesting.**
- Good experience in analyzing the **User stories** in **Sprint Backlog.**
- Good communication, collaboration with proficiency at grasping new technical concepts quickly and utilize the same in a productive manner.
- Knowledge in Test design techniques like **Equivalence Class Partitioning** and **Boundary value analysis.**
- Experience in **Sanity, Smoke Testing Functional Testing, Re-testing, Regression.**
- Also Performed **Globalization testing** and **end-to-end application testing.**
- Experience in **monkey Testing , Adhoc Testing, Exploratory Testing, Acceptance Testing,** also knowledge on **Performance testing, SecurityTesting.**
- Coordinating and communicating with **BA team** for better understanding of functional requirements for developing quality test cases.

- **Good understanding in Core JAVA, OOPS Concept, Collection ,String, and Array.**
- **Experience in automating Web Application using Selenium Web Driver with TestNG.**
- **Proficient in Test Automation using Selenium Tool ,Eclipse IDE and Pycharm.**
- Comfortable to work upon the **Automation Frameworks** :Data driven Framework, Hybrid Framework ,POM,Maven,TestNG Junit, PyTest, Cucumber BDD Framework also Preparation of automation test's using Selenium and TestNG.
- Also very good exposure on Build Automation Tools like Maven.
- **Performed Automation testing using Selenium on Web based (Browser) application.**
- Good Experience in **Collections, Exceptions Handling.**
- Good experience in creating, modifying, and enhancing both manual Test cases and Test Scripts created in **Selenium Web Driver.**
- Experience in developing the scripts using **TestNG** annotations.
- Experience in working on **Page Object Model** Design pattern with Hybrid framework.
- I have successfully gained proficiency in the **Pytest framework.** I have invested time and effort in learning and practicing Pytest, and I am now confident in my ability to utilize it effectively for test automation purposes.
- I am now proficient in working with the **Cucumber framework.**
- Good at identifying business component and designing the same.
- Executed test scripts on Google chrome, IE, Firefox (**cross browser testing**)
- Different reports are generated in framework **TestNG , ExtentReports.**
- Created Generic and Web Driver Generic classes function for the entire Project.
- Worked on **HTML, and CSS Selectors, Xpath** Expressions to identify web elements.
- Experience on handling different type of Elements, List box and pop-ups.
- Handling Actions, TestNG & Annotations, designing POM (Page Object Model)
- **Git** for version control Worked on Repository management tool like **Github** and Continuous Integration tool like **Jenkins(CI/CD)**Pipeline.
- Good Experience in Web Service Testing with the help of SOAP UI which includes creating the test cases and validation of the same.
- good understanding of **POSTMAN in API Testing.**
- Experience on **Unix** commands.
- Experience on **SQL** to conduct Database Testing.

## Client Testimonials

“Quick learner and capable of handling multiple tasks.”

“He is always ready to take any challenging task and works with dedication”

## Education

- **I hold a Bachelor's degree in Engineering (B.E) from Pune University.**
- **I have completed my Engineering from J.S.P.M. Narhe Technical Campus Pune.**

## Certification

- **I have completed the # Python for Beginners course and Selenium Webdriver with Python from Scratch + Frameworks..**
- **I have successfully completed the "ChatGPT for Beginners" course.**

# Project Experience

## Project 1. Sales/Marketing

**Project Title : Salesforce Domain**

**Client : Red Hat**

**Duration : May 2022 to Present.**

### Description-

Salesforce is a leading customer relationship management (CRM) platform that helps businesses manage and automate various aspects of their sales, customer service, marketing, and other related processes. It provides tools and solutions to organize customer data, track interactions, and streamline business operations for improved customer engagement and growth.

This platform is designed on Salesforce to be utilized by Sales/Marketing representatives. Its purpose is to campaign products, attract leads, follow up, and ultimately close leads. The lead conversion process encompasses opportunities, customer contacts, and accounts.

### • Roles and Responsibilities-

- Interact with developers and discussed technical problems, Bugs Tracking.
- Reporting the Regular status to the higher authorities in a timely manner.
- Designing and Executing test cases from the Functional specifications.
- Verifying FRS and executing the test cases for automating the testing procedure.
- Preparation of automation test's script using Selenium and TestNG.
- Developing POM classes and Test classes.
- Participated in the Test case review meetings.
- Performed Functionality Testing, Retesting and Regression Testing.
- Involvement in Test Execution, Result Analyzing and defect reporting.

## Project 2. Insurance Domain

**Project Title : Everest Middle Market Property**

**Client : Everest insurance, USA**

**Duration : Jan 2020 to March 2022**

### Description:

Everest's new Middle Market Property product enabling domain across real estate, healthcare, technology, manufacturing, hospitality and financial services among others, to place their entire property coverage with a single carrier that includes home owners' insurance, auto insurance, life insurance, General insurance, individual life insurance, group medical insurance, group life insurance and financial services.

### • Roles and Responsibilities-

- Interact with developers and discussed technical problems, Bugs Tracking.
- Reporting the Regular status to the higher authorities in a timely manner.
- Designing and Executing test cases from the Functional specifications.
- Verifying FRS and executing the test cases for automating the testing procedure.
- Preparation of automation test's script using Selenium and TestNG.
- Developing POM classes and Test classes.
- Participated in the Test case review meetings.
- Performed Functionality Testing, Retesting and Regression Testing.
- Involvement in Test Execution, Result Analyzing and defect reporting.

### Project 3. Sports Domain

Project Title : Volley metrics

Client : Hudl

Duration : July 2019 to Jan 2020

#### Description:

Hudl is a prominent sports analysis platform specializing in American Football, Volleyball, Soccer, and Basketball. It enables in-depth game analysis and breakdown by utilizing statistical analysis tools and software to manipulate and examine data. Professionals in this domain possess expertise in manual testing of the sports software's API and UI, ensuring optimal performance and accuracy in capturing and evaluating game-related information.

#### • Roles and Responsibilities-

- Interact with developers and discussed technical problems, Bugs Tracking.
- Analyzing statistics such as scores and statistics to provide information about player performance or team trends.
- Tracking every touch on both sides of the net to improve your team's performance.
- Reporting on the latest news about teams, players, and upcoming games in their sport
- Proactively Participating in all project related meetings.
- Perform functional (manual) Testing.
- Understanding the requirements in User Stories
- Client communication.
- Performed Functionality Testing, Retesting and Regression Testing.
- Involvement in Test Execution, Result Analyzing and defect reporting.

#### +Strengths :

Proactive Hard working

Positive Attitude  
Open for new challenges

Quick learner

### Personal Profile

- Date of Birth- 05/07/1996
- Current Address- **Pune**
- Language Known -English, Hindi and Marathi.
- Marital Status -Married
- Nationality -Indian

### Declaration

- I do hereby declare that all the information given above is true to the best of my knowledge and belief.

• Place: PUNE
