Frameworks: React.js, Bootstrap, Redux, D3.js,   *Tools/Other*: Linux (ubuntu cli)
Next.js, Tailwind

SELECT WEB DEV PROJECTS

Random-Quote-Machine Built for giving random motivational quotes from prominent people in the society. **JavaScript, HTML, Bootstrap**

Markdown-Previewer This app has an editor and previewer feature. The user can type GitHub flavored markdown into the editor, and the text will be rendered as HTML in the preview section. **React.js, CSS, Marked parser**

Drum-Machine Music machine that produces different sounds when button is clicked or associated key is pressed. **React.js, CSS, JavaScript**

Video-Recording-Chrome-Extension This is a chrome extension that helps users to record their computer's screen. They can then share the link to the recording to whomever they want to. **React.js, vanilla JavaScript**

MentorMe In this project, I collaborated with about 15 others. It is a platform where experienced people in several industries can sign up as a mentor. People who want to learn as well can sign up as a mentee. This platform bridges the gap for people who need mentors and people who are looking for serious minded individuals to spend their time and resources on. **Next.js, TypeScript, Tailwind CSS.**

RECENT WORK EXPERIENCE

Web Development Consultant, CTRIM organization (2021)

- Provided WordPress development utilizing HTML and CSS
- Successfully migrated a database from the old website to the new website with ZERO broken links
- Re-designed and developed clients web app with improved SEO. This resulted in:
  - o Upscaling the client's website on google search engine.
  - o Having a modern looking user interface.
  - o Increase in websites activity by 90% because YouTube was integrated for showing the clients latest updates.

Tech Lead, Piinoc foods (2022)

- Led all technical aspects of the development of the website using WordPress
- Customized platform's theme using HTML and CSS, to better reflect the information presented

HNG Internship finalist, (2023)

I demonstrated my web development skills by successfully meeting real-world task requirements, which led to my promotion from the first stage to higher stages during the internship program.
