**Mobile:** +234(0)8067949258, +234(0)9038254145

### CAREER OBJECTIVES

- I am a Software developer with extensive knowledge in frontend and backend development, Skills: WordPress (WooCommerce, Theme, Plugins, Advanced Custom Fields, API, Elementor), HTML, SCSS, CSS (Bootstrap, Material UI, Ant Design), Genesys Cloud, CMS, PHP, SVG animation, MySQL, Git, JavaScript, jQuery, ReactJS, VueJS, NodeJS, C#, .NET, Photoshop, Adobe, Figma, C panel, SEO, Scrum, Agile, and Product management.
- I am seeking a challenging career in ICT that will allow me to maximize on my technological, managerial skills and abilities.
- I am a goal-oriented and disciplined achiever.

### WORK EXPERIENCE

- **18/07/2022 – Present – Victoria Island Lagos, Nigeria.**

#### **EXPERIENCED TECHNOLOGY ASSOCIATE – (PwC)**

- Collaborated with clients to understand their business objectives, conducting thorough technology assessments to identify opportunities for improvement.
- Part of a team of IT experts in developing and implementing cutting-edge solutions, resulting in significant increase in operational efficiency.
- Worked on strategic roadmap on digital adoption, environmental stability, and data analytics, ensuring clients stay ahead in the rapidly evolving digital landscape.
- Utilised Agile methodologies to efficiently manage project lifecycles and deliver features that met or exceeded client expectations.

## **TECHNOLOGY ASSOCIATE – (PwC)**

- I handled project related to technology implantation, using Microsoft Azure to implement cloud infrastructure.
- Project management, I engage in software development lifecycle and managing delivery timeline.
- Digital strategy, I plan project technical structure and delivery process.

## **FULLSTACK SOFTWARE / AGILE – (PwC)**

- I acquired in-depth training in both frontend and backend programming using ReactJS for the frontend and C#.Net for the backend. Best coding practices were introduced with technical and non-technical collaborations, Agile and Product Management. The program's final project included a hackathon where participants could put their newly acquired skills to good use. My team came first position with the Wallet Management System application. ### **➤ 01/11/2022 – Present – Falomo Lagos, Nigeria.**

## **TECHNOLOGY CONSULTANT – MTN Nigeria (Secondment from PwC)**

- Worked closely with cross-functional teams, such as designers, product managers, and other developers, to understand project requirements and deliver high-quality software solutions.
- Integrated third-party APIs to enhance application (Genesys Cloud) functionality and improve user experience.
- Collaborated with team to devise technology roadmaps for innovative solutions that aligned with business goals.

- **04/05/2021 – 30/06/2022 – Lekki Lagos, Nigeria.**

**SOFTWARE ENGINEER– SURVEYPLUS LIMITED**

- I help build the website version of the company's mobile application using React JS.  
Additionally, I am involved in website maintenance, implementing new operational features, managing products, and providing essential IT support to ensure uninterrupted business operations.

- **27/12/2020 – 18/03/2022 – 2nd Avenue Egab City Estate, Abuja Nigeria.**

**WORDPRESS DEVELOPER (REMOTE) – RBFC CHILD FOUNDATION**

- I train the IT personnel in programming and basic IT support. I assist in the planning, implementation, management, monitoring, and updating of security measures for the organisation's data and networks. I also assist with the creation of the foundation website (WordPress, WooCommerce), protection of all our systems from cyber threats, and hacking attempts. I also test and configure hardware and software systems.

- **06/12/2021 – 28/02/2022 – Ikeja Lagos, Nigeria.**

**WEBSITE DEVELOPMENT INSTRUCTOR (CONTRACT) – FASLEARN**

- I create educational content on Faslearn, covering WordPress website development, HTML5, CSS3, JavaScript, and ReactJS. Additionally, I offer training to students from the University of Nigeria Nsukka on these topics.

- **11/03/2020 – 18/04/2021 – Lekki - Ajah Lagos, Nigeria**

**SOFTWARE ENGINEER – EVENDECOMMERCE**

- I assisted with the creation of the company website from the start to the end using ReactJs, a JavaScript framework that provides component reusability and rapid interaction with the virtual DOM. I assist with the product management and maintenance of the company's websites with the implementation of new upgrades.

- I also assist with the monitoring of the website's payment section, which employs Stripe as a payment gateway and CommerceJS for product backend and maintenance. I periodically enhance the website's mobile responsiveness, especially when there is a new update.
- **27/03/2019 – 27/03/2020 – Saapade Ogun State, Nigeria**  
**GRADUATE ASSISTANT (NYSC) – THE GATEWAY ICT POLYTECHNIC**  
**SAAPADE, OGUN STATE, NIGERIA**
- I assist lecturers in obtaining research materials and teach Networking, Digital Communications, and JavaScript to National Diploma 1 and National Diploma 2 students. Additionally, I conduct practical sessions for computer engineering students and have organized workshops on Embedded System Engineering and Data Interchange. These workshops cover programming with Arduino C, C#, data structures, parallel computing, computer clusters, and hardware packaging.
- **14/08/2017 – 12/02/2018 – Ikoyi Lagos, Nigeria**  
**EMBEDDED SYSTEM SOFTWARE ENGINEER – CHRISTOPHER KOLADE**  
**FOUNDATION (NGO)**
- I trained over 300 female students in Lagos, Nigeria, focusing on electronics, embedded systems programming, and app development. At the inaugural tech exposition organized by an NGO at Tafawa Balewa Square, I served as a programming instructor. In the group project competition, my students took first place with their Application-Controlled Door Lock project, and in the individual project category, they secured second place with the Asthma Aid project.

➤ **12/06/2017 – 15/12/2017 – Ogba Ikeja Lagos, Nigeria**

**EMBEDDED SYSTEM SOFTWARE ENGINEER (INTERNSHIP) –  
CENTER4TECH LAGOS**

- As an assistant to the research and field officer, I worked in the research unit. I taught students on embedded systems engineering and helped them build electronics project using Arduino uno.

## **EDUCATION AND TRAINING**

➤ **07/2013 – 11/2018 – Akure, Ondo State Nigeria**

**Bachelor of Engineering - Federal University of Technology Akure (FUTA).**

- **Field(s) of study:** Electrical and Electronics Engineering
- Second Class Upper division (Honors’).
- Review of some courses offered: Introduction to Computing, Practical
  - Skills in Entrepreneurship, Basic Computer Programming 2 (Python),
  - Computer Engineering, Digital Signal Processing, Digital Communication, Numerical Analysis, Engineering Statistics, Computer Software applications in Electrical Engineering (MATLAB), Digital Communications, Engineering computation methods, Object oriented programming (C#) and so on.

➤ **CONTINUING EDUCATION**

- Scrum Fundamentals Certified (SFC) – SCRUMstudy Accreditation Body for Scrum and Agile

## ➤ SKILLS

- Programming skills
  - HTML, CSS, WordPress, JavaScript, JQuery, ReactJS, VueJS, NodeJS, MaterialUI, Bootstrap, MATLAB & Simulink, Jira, Git, C, C#.
- Soft skills
  - Teamwork, Good presentation skills, Good communication skills (written and verbal), Organizational and planning skills.
- Microsoft skills
  - Microsoft Word, Microsoft Excel, Microsoft Office, Outlook.

➤ VOLUNTEERING ACTIVITIES

- Community Clean-up Project International youth day of service 2021 Leap Africa.
- The Global Week to #Act4SDGs 2021, United Nations SDG Action Campaign.
- Sustainable Development Goals Community Development Service Unit, National Youth Service Corps (NYSC) Nigeria.

➤ LANGUAGE SKILLS

- Official language(s): English
- Mother tongue(s): Yoruba

➤ AWARDS AND CERTIFICATES

- Scrum Fundamentals Certified SCRUMstudy
- Certificate of Completion, Google Africa Developer Training Program 2020
- Certificate of Attendance, International Cybersecurity Institute (ICSI).

➤ REFEREES

- Available on request.
