WORK EXPERIENCE

Software Engineer
Ecospace Infrastructures Private Limited

08/2023 - Present   *Gurgaon, India*

EIPL aims for quality engineering planning, design ,software & project management consultancy services.

Achievements/Tasks

- Demonstrated a strong ability to adapt and innovate by efficiently scaling the infrastructure of the existing system, optimizing performance and ensuring seamless user experiences.
- Successfully accelerated the onboarding process by comprehensively learning the existing codebase, which consisted of a Spring Boot backend and Vue.js frontend, within a span of two months.

Technologies : SpringBoot(Java) - VueJs(javascript)

Web Developer Intern
Edvanta Technologies

04/2022 - 08/2022   *Remote*

Edvanta Technologies helps organizations with building their Digital Learning Transformation journey.

Achievements/Tasks

- Demonstrated a rapid learning curve by acquiring proficiency in frontend technologies within a few weeks.
- Contributed significantly to the production codebase by leveraging Vue.js, a powerful frontend library, to build a complex mathematical graph, highlighting the ability to apply newly acquired knowledge effectively in a real-world environment.

Technologies : Vuejs - Express

EDUCATION

B.Tech
Rewa Engineering College

08/2012 - 05/2023   *CGPA:8.56*

XII
Shiv Jyoti Sr. Sec.School,Kota

07/2017 - 05/2018   *Percentage:76%*

SKILLS

Javascript   HTML   CSS   Java   SpringBoot   ReactJS   VueJS   Mongodb   Bootstrap   DBMS   OS   DSA   C   C++   MYSQL

PERSONAL PROJECTS

Visitor Management System for Large Industries(Link: https://tinyurl.com/vmswe) (01/2023 - 04/2023)

- Designed and developed a robust Visitor Management System tailored to the needs of large industries, showcasing expertise in end-to-end application development.
- Leveraged a modern technology stack to ensure optimal user experiences, including React for the frontend, integrating Material-UI (MUI) component.
- Engineered a high-performing backend using FastAPI, enabling efficient data management, user authentication, and real-time interaction.

YelpCamp (Link: https://shorturl.at/abIRY) (11/2021 - 09/2023)

- Conceptualized and swiftly developed YelpCampground, a dynamic web application allowing users to create and explore campgrounds, showcasing adaptability and proficiency in full-stack web development.
- Utilized Express.js as the backend framework, enabling the creation of RESTful APIs for seamless data management and interactions.

Restaurant Web (Link:https://tinyurl.com/4yv9es64) (02/2022 - 03/2022)

- Designed and developed a dynamic restaurant website that offers user-customized special food menus, highlighting proficiency in full-stack web development.
- Utilized React.js for the frontend to create an interactive and user-friendly interface, allowing customers to input their preferences.

ACHIEVEMENTS

Technical Cell Overall Coordinator REC (Link: https://technicalcellrec.in) (08/2021 - 09/2022)

Demonstrated effective leadership and project management as the Technical Cell Overall Coordinator, successfully coordinating and leading technical initiatives and events.
