## PHILOSOPHY STATEMENT

Dedicated Internal Medicine Resident Physician with a strong desire to utilize my medical career not only to deliver outstanding care to my patients, but to build a better world for future generations through continuous efforts to improve medical education, clinical care, and scientific research. Currently working in a highly paced 650- bed tertiary academic hospital, exposed to a wide variety of specialities enriching the utmost service and care to assist patients and the community. I am inclined to the Cardiology Fellowship Program at St. Joseph's University Hospital Medical Center as its care philosophy of innovation and leadership resonates with my key strengths and career background.

---
