---

Hello **Dr. Dougherty Practice/Thomas Jefferson University**,

I am writing to express my interest in your open Advanced Practitioner position. With my hardworking, collaborative and empathetic nature, I believe I would be an ideal candidate and valuable member of your healthcare team.

As evidenced in my enclosed resume, I have completed a variety of clinical experiences that have provided me with the skills and insights necessary to be able to provide high quality patient care. Through my current position as an observation unit APP, I have managed high censuses of patients with a wide array of issues, often working with specialists to develop care plans for these patients. Through my position, I have acquired strong skills in developing a differential diagnosis, performing histories and physical exams, interpreting diagnostic and laboratory tests, and educating/counseling patients on their plans of care. I also recently completed a Masters of Public Health degree, which has provided me with valuable insights into the programmatic side of healthcare delivery. Prior to PA school, I spent time with a charity medical organization providing medical care to underserved populations in El Salvador. I learned to work with limited resources, think creatively and to collaborate within a healthcare team. Prior to PA school, I also worked as a patient care aide at an assisted living facility, where I gained experience caring for elderly patients with complex medical backgrounds.

My clinical experiences have provided me with confidence in my abilities to provide quality patient care. Working with a wide array of providers in diverse work environments has fostered my ability to be both adaptable and resilient. I am confident that this resilience, coupled with my dedication to life-long learning and hard work, will allow me to be a valuable member of your healthcare team. It would be a privilege to be able to utilize and build upon my skills through a career opportunity with your Practice.

If you have questions or require further information, please contact me at the email or phone number in my application.

Thank you for your time and consideration, I look forward to hearing from you.

Sincerely,

Amanda Goldstein, PA-C, MPH
